

Viewing PDF Transcripts Browser Settings

1. Current version of ADOBE READER must be installed on computer
2. Browser settings must be configured to use ADOBE READER to open PDF documents (they cannot open in a browser window).

FIREFOX

- Menu (hamburger icon at top right)
- Options
- Applications (scroll down page)
 - Content Type = Portable Document Format (PDF)
 - Action = Use Adobe Acrobat/Adobe Reader

- Close browser and retry; may also need to restart computer to save settings

CHROME

- Menu (hamburger icon at top right)
- Settings
- Advanced link (at bottom of page)
- Site Settings in Privacy and security box
- PDF documents
- Turn on (right) *Download PDF files instead of automatically opening them in Chrome*

- Close browser and retry; may also need to restart computer to save settings
