COURSE # Course Name *(Prerequisites, Co-Requisites)*

F = FALL, S = SPRING

ENTOMOLOGY

Explore the role insects play in crop production and landscapes. Study pollination, disease transmission, pest management and all areas of entomology. You will apply what you learn in the classroom at on-campus laboratories, fields and greenhouses.

Career Options

- Entomologist
- Soil and Plant Scientist
- Agricultural Teacher
- Natural Sciences Manager
- Environmental Scientist
- Pesticide Use Specialist
- Research Assistant
- Extension Educator
- Laboratory Technician

Fast Facts

- Access to more than 1 million insect specimens in the U of I William F. Barr Entomological Museum.
- Observe insects in their native habitats and collect samples at on-campus farms and greenhouses.
- Develop and conduct your own research project.
- Get involved with the Aldrich Entomology Club, Plant & Soil Science Club or Environmental Science Club to network with peers and potential employers.
