Teen Conference Survey Consent Form

The University of Idaho Institutional Review Board has approved this project.

The purpose of this study is to evaluate the impact of the Idaho State 4-H Teen Conference on youth leadership development and the quality of the event. Your participation will provide us with an opportunity to improve the conference and help us provide the best program possible for Idaho youth.

You will be asked to fill out a one page written survey to be returned with your registration packet, several small surveys throughout the conference and one page survey at the close of the conference and receive another survey 3 months later in the mail.

There is minimal risks associated with this evaluation. Some people find the questions may cause emotional responses. If you feel emotional you may take a break or quit at any time with no penalty. All you need to say is that I no longer wish to participate.

Your identity will not be linked to your survey data in any way. Data will be kept on an access restricted computer.

If you or you have questions about the study or interview, you can ask the investigator during the interview, when the interview is complete, or at a time you feel is appropriate.
