987 River Road, Moscow, ID 83843

Education

Bachelor of Science in Fishery Resources, May 20xx

University of Idaho, Moscow, ID

GPA: 3.43

Course Highlights:

Fish Health Management
Fisheries Management

Concepts in Aquaculture
Principles of Population Dynamics

Limnology
Fish Ecology

Projects:

“Mapping the Impact of Local Hatcheries on Fish Count in the Snake River”, Fall – Spring 20xx
Senior Thesis Project, University of Idaho

- Investigated how the American Falls Fish Hatchery impacts the surrounding area of the Snake River below the American Falls Reservoir
- Performed extensive field work on the river to collect water samples, observe fishing patterns, and track fish
- Analyzed samples and correlated data to determine relationships between the number of fish released and changes in the river
- Illustrated a map of the changes downstream from the hatchery
- Discovered a positive effect on the river ecology and fish count due to proper stewardship and care by the hatchery
- Presented the findings to a group of peers and faculty at the University of Idaho

Experience

Fisheries Technician Intern, Summer 20xx

Idaho Department of Fish and Game, Lewiston, ID

- Gathered tissue and scale samples from migrating adult Steelhead and Chinook salmon at the Lower Granite Dam adult fish trap
- Implanted PIT tags on adult salmon
- Handled tissue and scale samples from adult salmon
- Assisted in data entry and validation
- Surveyed Chinook spawning grounds on the South Fork Clearwater River

Hatchery Laborer, Summers 20xx – 20xx

American Falls Fish Hatchery, American Falls, ID

- Led guided tours of the hatchery on a daily basis
- Educated the tourists about the different areas and purposes of the hatchery
- Assisted in the rearing and caring of rainbow and brown trout by monitoring water temperatures and timed feedings
- Maintained the self-guided nature tour trail and Snake River public access trail by cleaning, trimming, shoveling, and raking

Computer Skills

Proficient in: GIS, Microsoft Excel, PowerPoint, Word

Community Service

Volunteer, 20xx – 20xx

American Falls Fish Hatchery, American Falls, ID

- Cleaned and maintained trails and pathways
- Organized pamphlets and informational brochures
- Learned to manage time in order to complete multiple projects on time
