

Academic Web Team, UCM

7 September 2023

The web team has always been great at helping us navigate Sitecore. As we all know, the first few weeks of Fall semester are incredibly busy. In our department, there are many website updates that need to happen as tutoring hours change, colloquiums and seminars start meeting, etc. I am AMAZED at how quickly Sitecore change requests have been published the last couple of weeks. The web team has also been friendly and helpful when I have questions. This is an all around great team, taking something that's a bit overwhelming and making it a pleasant experience!

Jessica Fleener - Mill Manager

14 September 2023

Jessica strives to make the MILL an inclusive, education-focused place. She has increased the programming offered by the MILL, and increased the variety of activities and machines that are available for students, faculty/staff, and community members to use. She has shown so much creativity and drive to establish the MILL as an important part of the UI Library, and it really has become an integral part of outreach and engagement.

Ben Bridges - Office Manager

20 September 2023

Too often, when I think of having to deal with any parking office staff, my anxiety rises. Ben Bridges in U of I's Parking and Transportation Services office breaks the mold. I get to coordinate parking options at the Idaho Water Center and the College of Law's Boise location. Parking in Boise's downtown is very expensive and hard to find. Ben is continually willing to work with us on ways to improve our parking permit purchase options, personally opening the portal to sell one or two permits, creating new permits for employees and students and the list goes on. Ben is always kind, patient and makes time for us. We couldn't do this without him. Thank you, Ben!

Nikolas Schwartz - Customer Service Lead

26 September 2023

Nik was extremely patient and helpful in assisting me with an odd issue encountered by a first year student. He was able to help us navigate the situation in which they found themselves in and provide us with specific steps needed to attempt to rectify the situation. Nik's knowledge, efficiency, and easy demeanor helped me get the correct information I needed to assist our student in need, ultimately leading to their continued academic success and proficiency of navigating life on our campus.

Trevor White - Academic Advisor & Administrative Assistant

27 September 2023

Trevor is an outstanding academic advisor, having received both the UI and CALS advising awards over the past couple of years. He's also been instrumental in shaping a curriculum overhaul that has been completed by FCS faculty since 2020 (e.g., he completes all the CIM entries!), and is the FCS representative to both the CALS and UI curriculum committees. His efforts, in large part, are responsible for the rapid enrollment growth that FCS has experienced (we increased 41 students, or 25%, between 2022 and 2023). Trevor is professional and caring. He works with students so that they can make the best choices and live their best lives. In addition, he is finishing up his masters degree this semester and will likely begin a doctoral program in 2024. We are so lucky to have him as part of the FCS family!

Dawn Sundman - Custodial Foreperson

27 September 2023

Dawn and her team worked tirelessly to clean the Kibbie Dome and the Arena before, during, and after the Styx Concert and the Football game versus Sac State, putting in long hours to provide a clean space for the many attendees of these events. She always brings her "game face" to the events - being indefatigably cheerful and upbeat - win or lose.

Kinsey Walt - Marketing Specialist

27 September 2023

Kudos to Kinsey for helping Career Services completely rebrand our career fairs for students to the Future You Fair. Kinsey has been so helpful to our office as we look to rebrand what we do and increasing our reach on social media. We are so lucky to have her.

Amber Gray - Assistant Director Employer Relations

27 September 2023

Amber has been working so hard putting together what is going to be the largest career fair in UI history, with over 230 employers. We are so excited to welcome our employers to campus, and this event would not be near as great as it is without Amber. We are so lucky to have her in Career Services.
