Solid Waste Billing – FY09

Solid waste generated during the course of operations on campus is billed through the Recycling/Solid Waste/Surplus Program (RSSW). This team is part of Landscape & Exterior Services (LES) of Facilities Services. RSSW also handles the requests for service changes with our local sanitation service company [Latah Sanitation Inc. (LSI)].
Living groups are billed and coordinated through the City of Moscow.

Billing is divided into two sections. Section one deals with waste that is generated on a daily basis as part of a unit's normal everyday function and covered under the General Education Solid Waste Budget. This material is disposed of in various sized dumpsters on predetermined schedules that are located near individual buildings.

The second section deals with solid waste that is generated from events, remodels, cleanouts, upgrades, and other non-routine functions that are billed directly to the generating party or unit.

Section 1:

Waste is billed to the appropriate group on a monthly basis. Units that are Gen. Ed. Groups such as Administration & General Support buildings & Colleges are billed and paid by a general fund.
All solid waste generated by Auxiliary groups such as University Residences, Events, Athletics, etc, are billed directly on a monthly basis.

Section 2:
The controlling unit must pay for waste that is generated above and beyond the normal everyday function. This includes departmental dinners and picnics, departmental cleanouts, remodels, upgrades, scheduled events through Conference and Events, all Auxiliary Functions and any other event not deemed part of routine service.

Units that fall into a charge back category must provide a fund to pay for disposal costs. Rates are determined by size of disposal unit and amount required to be disposed of.

Individual units are responsible to provide mobile containers to dump trash in before it is disposed of in a dumpster. All trash must be bagged and tied. Loose trash is not acceptable.
Users must make prior arrangements to insure that adequate facilities are available at the time of their event. Events are **not allowed** to use dumpsters that are on campus for general education solid waste, unless prior arrangements are made with RSSW to ensure a pickup of the dumpster before the next regularly scheduled school day. This ensures that there is adequate waste disposal space available for normal solid waste generation. If a dumpster is used either with or without permission… a charge to the department or unit will still be assigned.

Large cleanouts must be scheduled at least one month in advance.

Extra service requests must be called in 24 hours in advance. Extra requests for Monday pickups must be called in by the Friday prior at 3:00 pm to be scheduled.

Section 3: Bringing solid waste or household trash from your home or dwelling is forbidden and considered to be a “theft of services”. When a potential “theft of services” is noted in the waste stream, the offending party will be contacted and billed for the service if possible.

FY 09 Solid Waste Rates:

1 yard of solid waste	$13.25/yard
2 yard tow unit	$25.00/day/event + Labor *(1 Hour Minimum $31.80)*
10 yard rolloff	$50.00 + tipping @ $64.80/ton
15 yard rolloff	$50.00 + tipping @ $64.80/ton
22 yard rolloff	$178.70 tipping @ $64.80/ton
30 yard rolloff	$178.70 tipping @ $64.80/ton
(Extra dump Front loader)	$26.15 + $13.25/yard
(Temp dumpster Front loader)	$34.10 + $13.25/yard
Labor	$30.00/hour/1 hour minimum
Solid Waste	$64.80/ton
Demolition Waste	$30.00/ton
Overflow Charge	$22.80/yard

Note: Barrels are no longer provided for UI Events by RSSW. They have been replaced with 2 Yard Tow Units. This provides a more sustainable and effective way to provide solid waste services for Events patrons.

Campus Events does have some smaller trash cans available for rent… they can be contacted at 885-2347 for pricing information.

Because of fluctuating solid waste costs, always check the website at the Campus Recycling & Solid Waste Home Page. Thank You.
