Pursuing a new life direction after retiring from the military, Clinton Culp secured a position as a doctoral student at the Center for ETHICS focusing on sports, but it was his military connections that would eventually direct his studies. "It's been a very fortuitous chain of events that has led me to this program," says Major (Ret) Culp, who retired after 24 years of service in the U.S. Marine Corps. "I gravitated to it over the years. Once I spent time in the Marine Corps, I saw that a big part of being a leader is educating and mentoring those around you, and that's what I wanted to do."
