Request for Policy Analysis Group (PAG) Project

Replies to the questions below will help us design a useful project report consistent with the PAG mission – "to provide timely, scientific and objective data and analysis, and analytical and information services, on resource and land use questions of general interest to the people of Idaho" (Idaho Code § 38-714) – and to work with the PAG Advisory Committee to determine project priorities. For additional information, identification of Advisory Committee members, and examples of PAG reports, please visit our website: http://www.uidaho.edu/cnr/pag.

You have two options for completing the form: [1] fill out the electronic version of the form on the PAG website which when completed will e-mail us the completed form with replies directly following each question, or [2] fill out a printed version of the form, attaching additional sheets with your numbered replies, and mail the form and sheets to us. For help, contact Jay O'Laughlin or Philip Cook by phone (208-885-5776), FAX (208-885-6226), e-mail (pag@uidaho.edu) or postal service: Policy Analysis Group, College of Natural Resources, University of Idaho, 875 Perimeter Drive MS 1134, Moscow, ID 83844-1134.

Date: _____

Your name . . . . . .: _____

Your title . . . . . .: _____

Agency or organization . . . : _____

Address. . . . . .: _____

1. What is the resource management issue you are concerned about?
2. Why is your agency or organization concerned about this issue?
3. Which other organizations are likely to have concerns about this issue?
4. Where is this issue a particular problem in Idaho?
5. Which policy or policies are related to the issue (federal or state laws, agency practices, etc.)?
6. How are these policies related to the issue?
7. Who would be interested in a policy analysis of this issue; i.e., who would read the project report?
8. When would a project report be most useful, and why did you select that date?
9. What do you suggest for the name of the policy analysis project report?
10. What length would you suggest for the project report? Check one box below:
    ☐ Short = 10 pages or less; ☐ Medium = 11-50 pages; ☐ Long = more than 50 pages
11. What are the main questions the project report should try to answer?
    (The main questions you identify might be used as the outline of a PAG project report.)
