2018 Joseph Jordan Water Resource Scholarship

IWRRI is pleased to request applications for the 2018 Joseph Jordan Water Resource Scholarship. The scholarship provides $5000 in financial support to an enrolled University of Idaho graduate or undergraduate student. The successful applicant will have completed at least their junior year and will be interested in an internship to gain experience in the field of water resources. The 8—10 week directed summer internship is intended to give students an opportunity to work with a state, federal or tribal agency, a non-profit organization or a private entity engaged in water resource management and research that matches the successful applicant’s interests. The scholarship recipient will have a unique opportunity to obtain real-world water resource work experience in areas such as: integrated water resource planning, stream restoration, water resource infrastructure, data analysis, and stakeholder engagement. Internships will generally be located at the sponsor’s headquarters or field offices in Idaho. The scholarship recipient will be responsible for his or her living expenses and travel to the internship location.

To be eligible, applicants MUST:

a) Be enrolled in a water resources related degree program at the University of Idaho
b) Be a resident of Idaho
c) Be a senior or graduate student at the beginning of the summer internship
d) Have a minimum GPA of 3.0

The deadline to apply is 5:00 pm PST, November 28, 2017. Review of applications and selected candidate interviews will be conducted in early December. The successful applicant will be announced by December 15, 2017.

Financial need is considered in the selection process (please have your FAFSA filled out). If you have questions, please contact Dr. Kolok at the email above or Dr. Robert Heinse, Water Resources Program Interim Director: rheinse@uidaho.edu
2018 Joseph Jordan Water Resource Scholarship Application

Deadline – November 28, 2017
