INTERMOUNTAIN FORESTRY COOPERATIVE TECHNICAL MEETING AGENDA

Tuesday, March 21, 2023 University Inn Best Western, Palouse/Empire Room, Moscow, Idaho SAF CFE 6 Cat-1 Credits Available All Times Pacific

"43nd Annual Technical Meeting of the Intermountain Forestry Cooperative"

7:30 - 8:00	Registration – Check-in
8:00 - 8:05	Welcome and Housekeeping Items
8:05 - 8:45	PPDM Update: Site and stand effects on conifer species growth and mortality following stand density manipulation <i>Mark Kimsey, IFC</i>
8:45 – 9:45	PPDM Update: FVS thinning projections vs observed growth trajectories following stand density manipulation <i>Ann Abbott, IFC</i>
9:45 - 10:00	Coffee Break + Discussion
10:00 - 10:30	RGT Update: Project status report Mark Kimsey and Taylor Lantz, IFC
10:30 - 11:00	NMS Update: Whole tree vs bole only effects on nutrition and growth – 10 yr Report <i>Terry Shaw, IFC</i>
11:00 - 11:30	Member Project Discussion Period
11:30 - 1:00	Lunch (on your own)
1:00 - 1:30	James Moore Keynote Address: Precision forestry initiative at the University of Idaho Bruce Ripley, College of Natural Resources, University of Idaho
1:30 - 2:00	Democratizing precision forestry – a collaboration between Oregon State University, University of Idaho and USFS-RMRS <i>Wade Tinkham, USFS-RMRS</i>
2:00 - 2:30	Research Spotlight: Automating the fusion of multiple sparse lidar point clouds Onni Pohjavirta, Finnish Geospatial Research Institute and Xinlian Liang, Wuhan University
2:30 - 3:00	Discussion + Refreshment Break
3:00 - 3:30	Defining and identifying site trees from varying pulse density lidar <i>Noel Daugherty, IFC CAFS Scholar</i>
3:30 - 4:00	Site-stand dynamics and pine beetle mortality in ponderosa pine ecosystems – implications for density management Haley Anderson, IFC
4:00 - 4:20	IFC Online Research Tools for Members Mark Kimsey, IFC
4:20 - 4:30	Meeting wrap-up
