Idaho Natural Resource Consultant Directory

The University of Idaho is compiling a directory of consulting foresters, forestry technicians and similar professionals with formal degrees in natural resources who provide advice and services to family forest owners for a fee, and can serve as the landowner's legal representative. If you would like to be included in this directory, please fill out the information on the other side of this page. If you prefer to do this electronically, you can request an electronic copy by e-mailing me at cschnepf@uidaho.edu.

The deadline for inclusion in the first iteration of this directory is **May 15, 2014**. The directory will be updated annually as needed and will be available primarily in electronic form, though it will be set up so hard copies can be printed. The directory will also include introductory information about consulting foresters and other natural resource professionals, the types of services they provide, descriptions of various types of credentials, and information responding to other questions forest owners often have about paying for professional forestry services.

If you know of others you believe would like to be included in this directory, please pass a copy of this document along to them. If you have any questions, feel free to contact me via one of the means below.
