

CURRICULUM VITAE

EDWARD O. (Oz) GARTON

Emeritus Professor of Fish and Wildlife Ecology and Statistics

11 August 2014

Department of Fish and Wildlife Sciences
College of Natural Resources
University of Idaho
Moscow, Idaho 83844-1136

Office: 208-885-7426
FAX: 208-885-9080
Cell: 208-310-5253
Email: ogarton@uidaho.edu

EDUCATION

Postdoctoral Fellow, 1976, University of California, Davis. Analysis of Starling Problems in California
Ph.D., Ecology, 1976, University of California, Davis. Dissertation: The Functional Response of White-Crowned Sparrows in Single-Species and Multiple-Species Prey Environments
M.S., Ecology, 1973, University of California, Davis. Thesis: Levels of Mercury, Lead, and Cadmium in Hair and Feather Tissues as Indicators of Exposure to These Heavy Metals: A Brief Survey of Human, Bird, and Animal Populations in Hawaii
B.A., Biology, 1968, Stanford University, Stanford

FIELDS OF SPECIALIZATION:

Population Dynamics and Management of Avian and Mammalian Populations
Experimental Design and Analysis
Modeling and Simulation of Population and Community Processes
Ecology of Large Mammals
Avian Feeding Ecology

PPROFESSIONAL CERTIFICATION:

Certified Wildlife Biologist

EXPERIENCE:

In Educational Institutions Since Receipt of Bachelor's Degree:

Teaching:

University of Idaho, Assistant Professor, 1/77-6/82; Associate Professor, 7/82-7/86; Professor, 7/86-6/11; Emeritus Professor, 7/11-present: WLF 302, Field Ecology; WLF 390, Principles of Fish and Wildlife Ecology; WLF 404, Honors Colloquium; WLF 448, Fish and Wildlife Population Ecology; WLF 541, Advanced Population Biology; WLF 543, Fish and Wildlife Population Analysis; WLF 501/504, Graduate Seminars:
2010, 2011 - Theory of Nature and Nature of Theory
2009 - Wilderness Wildlife Monitoring
2008 - Occupancy Estimation and Modeling: Inferring Patterns and Dynamics of Species Occurrence (with Janet Rachlow)
2007 - Managing Fragmented Populations: The Importance of Spatial Structure
- Information Theoretic Approaches in Fish and Wildlife Research (with Jon Horne)
2006 - Cause and Correlation in Biology: Assessment Using Structural Equation Modeling
2004, 2005 - Scientific Method for Ecological Research

2002, 2003 – The Ecological Detective: Confronting Models with Data
 2001 - Ecological Dynamics: Models and Theory with J. Michael Scott
 2000 – Spatial Ecology: The Role of Space in Population Dynamics & Interspecific Interactions
 1999 – Adaptive Management of Natural Resources
 1997, 1998 – Natural Regulation or the Control of Nature: The Greater Yellowstone Ecosystem
 1998 – Discordant Harmonies, A New Ecology and Yellowstone National Park, Honors Colloquium.
 1996 - Sustainability of Biological Components of Ecosystems
 1985 - Competition

Moi University, Kenya, Fulbright Professor, 9/89-5/90: WLM 301, Wildlife Management Techniques; WLM 316, Vertebrate Population Dynamics; WLM 418, Wildlife Management; WLM 426, Advanced Ecology.

University of California, Davis: Population Ecology, Lecturer, 1975; Introduction to Environmental Studies, T.A., 1971, 1974; Introduction to Ecology, T.A., 1972, 1973; Field Methods in Wildlife Biology, Instructor, 1974; Animal Behavior, Instructor, 1972.

Workshops for Professionals and Graduate Students (50):

- 2014 Estimating Swan Population Viability with Stochastic Growth Models, 3-hour, International Swan Symposium and Trumpeter Swan Society 23rd Conference, Easton, Maryland
- 2013 New Approaches to Studies of Home Range, Habitat Selection and Space Use, 5-day, University of Alaska, Fairbanks, Alaska
 Synoptic Modeling of Animal Locations Combining Animal Movements, Home Range and Resource Selection, 34 participants in 1-day workshop, Colorado Chapter of The Wildlife Society meeting in Colorado Springs, Colorado.
 Estimating True Numbers of Animals and Plants, 15 participants in 5-day workshop, Texas A&M University, Kingsville, Texas.
- 2012 Synoptic Modeling of Animal Location Data Combining Animal Movements, Home Range and Resource Selection, 97 participants in half-day workshop at International Wildlife Management Congress in Durban, South Africa.
 New Approaches to Studies of Home Range, Habitat Selection and Space Use, 5-day, University of Idaho, Moscow, ID in January and March and Texas A&M University, Kingsville, Texas
- 2008 Animal Abundance: Estimating "True" Size of Populations, 5-day, California Dept. of Fish and Game, Bishop, CA.
- 2007 New Approaches to Studies of Home Range, Habitat Selection and Space Use, 5-day workshop for faculty, post-docs and graduate students, Hedmark University, Evenstad, Norway
 New Approaches to Studies of Home Range, Habitat Selection and Space Use, 5-day, California Dept. of Fish and Game, Bishop, CA, ½ day, with Jon Horne, Cooper Ornithological Society.
- 2006 New Approaches to Studies of Home Range, Habitat Selection and Space Use, ½ day, with Jon Horne, TWS National Convention, Anchorage, Alaska
 Synoptic Model of Animal Space Use: Simultaneous Analysis of Home Range, Habitat Selection and Inter/inter-specific Relationships, 1-hour presentation, Texas A&M, Kingsville, Texas
 Hunting and endangered species? Using the scientific method in hunting and management of Greater Sage-Grouse, 2-hour presentation, Texas A&M, Kingsville, Texas
 Wildlife and Fisheries Surveys: Design and Analysis, 5-day, California Dept. of Fish and Game, Bishop, CA
 Sampling Biological Populations, 1-hour presentation as part of a workshop for Oregon Chapter of The Wildlife Society, Newport, OR.
 Research and Experimental Design, 3-day, for new and former M.S. and Ph.D. students in Environmental Studies, University of Rome, Rome, Italy.
- 2005 New Approaches to Studies of Home Range, Habitat Selection and Space Use, 2.5 day, taught 2 sessions at University of Idaho and one at Texas A&M Kingsville.

- Animal Abundance: Estimating "True" Size of Populations, 2.5 day, taught 2 sessions at University of Idaho.
- 2004 Wildlife Radio Telemetry: Design and Analysis, 5-day, University of Idaho.
- 2003 Metapopulations of Animals and Plants: Inventory, Monitoring and Viability Analysis, 5-day, University of Idaho.
Animal Abundance: Estimating "True" Size of Populations, 5-day, University of Idaho.
- 2002 Wildlife Radio Telemetry: Design and Analysis, 5-day, University of Idaho and Anchorage, AK.
Designing a Monitoring Plan for MIS, ½ day workshop for USDA Forest Service staff as part of a 3-day regional planning effort on Management Indicator Species, Denver, CO.
- 2001 Metapopulations of Animals and Plants: Inventory, Monitoring and Viability Analysis, 5-day, University of Idaho.
Wildlife Radio Telemetry: Design and Analysis, 5-day, University of Idaho.
- 2000 Metapopulations of Animals and Plants: Inventory, Monitoring and Viability Analysis, 5-day, 1 session at University of Idaho, and 1 session for Ontario Ministry of Natural Resources, Thunderbay, Ontario.
Metapopulations, 1-day workshop for USFWS, USFS, Alaska DFG, Juneau, Alaska.
Wildlife and Fisheries Surveys, 5-day, University of Idaho.
- 1999 Metapopulations, 3-hour workshop, Western Section of American Fisheries Society Meeting, Moscow, ID
Adaptive Management, Elk Habitat Initiative, University of Idaho.
- 1998 Computer Applications: Aerial Survey, Searching Literature, and Geographic Information Systems, Mini-workshop, Idaho Chapter TWS meeting, Moscow.
Metapopulations, 5-day, Alaska Dept. of Fish and Game, Anchorage, Alaska.
Multivariate Statistical Applications in Fish and Wildlife, University of Idaho
- 1997 Metapopulations of Animals and Plants: Inventory, Monitoring and Viability Analysis, 5-day, 1 session at University of Idaho, and 1 session for British Columbian Wildlife Branch of Ministry of Natural Resources, Victoria, BC.
Applications of Multivariate Statistical Methods to Fish and Wildlife, 5-day, University of Idaho.
Estimating Snag and Large Tree Densities and Distributions, 3-day, with Lisa Bate and Mike Wisdom for USFS, Walla Walla, WA
- 1996 Metapopulations of Animals and Plants: Inventory, Monitoring and Viability Analysis, 5-day, University of Idaho.
- 1995 Statistical Methods and Data Analysis for Fish and Wildlife Biologists, 5-day, Biologists from National Elk Refuge, Montana Fish and Game and USFS, Jackson Hole, WY.
- 1995 Population Ecology, Metapopulations and Biogeography of Animals, ½ day session, for USFS, CEEM, Continuing Education in Ecosystem Management, University of Idaho.
- 1994 Animal Population Ecology, ½ day session, USFS, CEEM, University of Idaho.
- 1993 Sampling Animal Populations, 5-day, Lisbon, Portugal
Wildlife and Fisheries Surveys: Design and Analysis, 5-day, University of Idaho.
- 1992 Wildlife Population Ecology, 5-day, University of Idaho.
Applications of Multivariate Statistical Methods to Fish and Wildlife, 5-day, Biologists from Idaho Power Co. and Idaho Dept. of Fish and Game, Boise, ID
- 1991 Multivariate Applications in Fish and Wildlife, 5-day, University of Idaho.
- 1985 Microcomputer Applications in Fish and Wildlife Biology. 5-day, University of Idaho.
- 1982 Statistical Methods and Data Analysis for Fish and Wildlife Biologists, 5-day, University of Idaho.

Research:

University of Idaho:

- | | |
|---------------|--|
| 9/2012-3/2013 | Population Viability Analysis for Lesser Prairie Chickens |
| 9/2010-6/2011 | Cooperative research and consulting with Idaho Dept. of Fish and Game |
| 2/2010-6/2013 | Analysis and modeling of space use by ungulates in Alaska |
| 8/2008-6/2011 | Greater sage grouse extinction risk |
| 9/2007-6/2012 | Spatial dynamics of mountain goats in Cascade Mountains |
| 8/2006-2010 | Risk assessment framework for threatened and endangered species on Department of Defense lands |

5/2004-2007	Population dynamics and management of Kodiak bears
5/2002-present	Greater sage-grouse population ecology
1/2002-6/2011	Interactions between elk and deer metapopulations in Idaho
9/2001-2005	Landscape models for terrestrial wildlife in Interior Columbia Basin
1/2000-2005	Assessing risk of selenium contamination to bird populations in SE Idaho
6/2000-6/2011	Modeling habitat and populations of elk and neotropical birds on landscapes
5/2000-2009	Lewis woodpecker nesting ecology
4/2000-9/2007	Beach buffer importance for wildlife populations in SE Alaska
7/1998-6/2011	Metapopulation of elk in Idaho
7/1997-9/2000	Diet, nutrition and population dynamics of tule elk at Pt. Reyes Natl. Seashore
1/1996-7/2000	Mule deer fawn survival and habitat selection
4/1995-7/1996	Evaluation of big game harvest surveys.
7/1992-6/2002	Effectiveness monitoring for elk populations
6/1992-12/2010	Monitoring woodpeckers, snags and downed logs on national forests
9/1991-9/2001	Conservation of biological diversity in the Northern Rocky Mountains
11/1991-present	Estimation of minimum viable metapopulations
1/1991-6/1994	Dietary selection of pocket gophers
6/1988-present	Impact of wolf reintroduction on Yellowstone ungulate populations
8/1986-6/1991	Habitat selection of fisher in northern Idaho
9/1985-6/1990	Black bear population management strategies in national parks
9/1985-6/1991	Functional feeding response of coyotes to changing prey abundance.
8/1985-present	Population ecology of trumpeter swans and whooping cranes
8/1983-12/1998	Status and habitat requirements of boreal owls in northern Rocky Mountains
11/1981-present	Aerial census methods for elk, moose, bighorn sheep, pronghorn antelope and mule deer populations.
7/1982-present	Home range analysis methods.
7/1981-6/1985	Baseline data gathering system for Research Natural Areas in Idaho
4/1979-present	Avian predators of the western spruce budworm.
1/1979-6/1982	Bird communities of north rim of Grand Canyon, Grand Canyon National Park
9/1979-6/1982	Resource partitioning between owls of the Idaho Primitive Area.
11/1979-2/1982	Simulation modeling study to develop and validate habitat select stream fish and fish food organisms.
2/1979-8/1979	A preliminary study of peregrine falcons in Yosemite National Park.
4/1977-6/1979	Director of a wildlife resource inventory of BLM lands in northern Idaho
7/1977-4/1980	Dietary selection in gray partridge.
3/1977-12/1977	Effects of Orthene pesticide application in Payette National Forest on bird communities

University of California, Davis:

7/1976-12/1976	Post-doctoral Fellow directing a study of starling populations in California.
10/1974-6/1976	Ph.D. research: Dietary selection in white-crowned sparrows.
6/1974-9/1974	Member of an interdisciplinary team studying the coastal grassland ecosystem in northern California. Responsible for avian and large mammal components.
1/1973-9/1974	Member of a team studying the impact of visitor use on various communities of Yosemite National Park. Responsible for small mammal and avian components.
9/1972-8/1975	Modeling moose-wolf-plant community of Isle Royale National Park.
5/1972-6/1973	Epidemiological investigations of fowl cholera in waterfowl in Sacramento-San Joaquin Delta.
6/1971-5/1973	M.S. research: Exposure of human, bird and mammal populations on Hawaii Island to the heavy metals mercury, lead and cadmium.

Extension and Service:

Serve as consultant to Idaho Department of Fish and Game and Bureau of Land Management on problems in

statistical design and analysis and wildlife population analysis. Activities such as project consulting and presentations to department biologists meetings.
Teach workshops on statistical methods and data analysis for fish and wildlife biologists.
Give invited presentations at an average of two national workshops each year.

Major Committee Assignments:

1978-79	Research, Scholarship & Committee on Committees
1979-80	Committee on Committees Applied Statistics Committee (University-wide)
1980-82	Applied Statistics Committee (University-wide) Computer Services Advisory Committee (University-wide)
1990-92	Interdisciplinary Curriculum Committee (FWR)
1990-92	Promotion and Tenure Policy Committee (FWR)

Other Professional:

Employment:

6/1968-10/1970	Peace Corps volunteer in Malaysia, tuberculosis control program organizer for the State of Trengganu.
10/1967-6/1968	Assistant curator of Dudley Herbarium, Stanford University.

Consulting:

11/2010-6/2011	Aster Canyon Consulting, design and analysis of winter impact studies of oil and gas development on Wyoming Greater Sage-grouse populations
1/2000-4/2002	Montgomery Watson, assessing selenium impacts of mining on birds in SE Idaho
6/2000-3/2001	Washington Fish and Game Dept., evaluate and redesign harvest surveys
4/2000-4/2001	Colville Confederated Tribes, evaluate wildlife management program
3/1988	USFWS Alaska Maritime NWR, statistical evaluation of seabird monitoring progr.
12/1974-1/1975	Bechtel Corporation, with two associates conducted field surveys for site description for EIR on Rancho Seco Nuclear Power Plant Expansion.

Membership in Professional and Scholarly Organizations:

The Wildlife Society Ecological Society of America

Community and Service:

United Church of Moscow, served as chair and vice chair of board of directors 2 times, currently serve as financial secretary (co-position shared with my wife) and chair of pastoral relations committee.
Advisory Board, Good Samaritan Village, retired.

HONORS AND AWARDS:

2013 Outstanding Monograph Award from The Wildlife Society
2013 Outstanding Spatial Ecology and Telemetry Product by The Wildlife Society SET Working Group
2012 Honorary Member of The Wildlife Society
2010 Outstanding Research Award, College of Natural Resources, University of Idaho
2007 Einarsen Award, Northwest Section of The Wildlife Society
2005 Alumni Award for Excellence, University of Idaho Alumni Association
2001 Outstanding Wildlifer Award, Idaho Chapter of The Wildlife Society
2001 Outstanding Professional Presentation, 2001 Conference, Idaho Chapter of The Wildlife Society
1989 Fulbright Fellowship to Kenya
1988 Outstanding Teacher Award, Associated Students of University of Idaho
1987 Outstanding Research Award, College of Forestry, Wildlife, and Range Sciences, University of Idaho

PUBLICATIONS:

Refereed Publications (93 published or in press, 4 in review, 6 in prep; 3392 citations, H-factor=33, i10-index=62 on 8/11/14):

POST-DOCS and VISITING FACULTY AS SABBATICAL REPLACEMENTS

Kerry P. Reese 1983-84 Visiting Assistant Professor

Bruce Ackerman 1988-1989 Post-doctoral Researcher

Greg Hayward 1989-90 Visiting Assistant Professor

Robert Crabtree 1989-90 Post-doctoral Researcher

L. Scott Mills 1993-1995 Visiting Assistant Professor

Jon Horne 2006-2010 Post-doctoral Researcher

Katherine Strickler 2006-2010 Post-doctoral Researcher

Kay Nicholson 2010-2012 Post-doctoral Researcher

GRANTS AND CONTRACTS: Total external competitive grants funded as senior/co-author: \$4.7 million plus external competitive grants funded as junior author: \$1.1 million

2014 Population Viability Analysis for Lesser Prairie Chickens, \$5,000, Oregon State University

2012 Population Viability Analysis for Lesser Prairie Chickens, \$10,000, Western Association Fish and Wildlife Agencies

2011 Modeling caribou movements in relation to oil field infrastructure: developing tools for assessing the effects of human activities on wildlife, \$39,000, Alaska Dept. Fish and Game.
New aerial survey models for elk and deer and population viability analysis for metapopulation of bull trout in state of Idaho, \$18,966, Idaho Dept. of Fish and Game.

- 2010 Modeling caribou movements in relation to oil field infrastructure: developing tools for assessing the effects of human activities on wildlife, \$69,000, Alaska Dept. Fish and Game.
Alaskan Ungulate Space Use Analysis and Modeling for Northeast and Utility Corridor Management Areas, \$93,600, USDI BLM Alaska.
- 2009 Linking Conservation Actions with Population Viability Models: a Renewed Call for Adaptive Management on Department of Defense Installations, \$341,770, SERDP, DOD.
Identifying key habitats and special requirements of mountain goats in the North Cascades. Seattle City Light, \$10,000 and US Forest Service, \$10,000, Wash. Dept. Fish and Wildlife \$10,000.
Sentinel leks: an integrated sampling approach to estimate greater sage-grouse population characteristics, joint project with Kerry Reese, approx. \$75,000 including in-kind. Idaho Dept. Fish and Game.
- 2008 Risk assessment for potential listing of Greater sage grouse under Endangered Species Act with Jon Horne, USFWS, \$74,00.
North Cascades mountain goat project, Wash. Dept. Fish and Wildlife, \$9,984.
Sentinel leks: an integrated sampling approach to estimate greater sage-grouse population characteristics, joint project with Kerry Reese, approx. \$43,000. Idaho Dept. Fish and Game.
- 2007 Identifying key habitats and special requirements of mountain goats in the North Cascades. Seattle City Light, \$40,000.
Sentinel leks: an integrated sampling approach to estimate greater sage-grouse population characteristics, joint project with Kerry Reese, approx. \$35,000. Idaho Dept. Fish and Game.
- 2006 A risk assessment framework for defining scientifically-defensible recovery goals for listed species, Department of Defense, SERDP, \$989,414, joint proposal with Mike Scott and Scott Mills (Univ. of Montana).
Sentinel leks: an integrated sampling approach to estimate greater sage-grouse population characteristics, joint proposal with Kerry Reese, approx. \$25,000. Idaho Dept. Fish and Game.
- 2005 Habitat correlates of trend, variation, and persistence in greater sage-grouse populations, USGS, \$24,934.
Gunnison sage-grouse population trends, US Fish and Wildlife Service, \$12,000.
Competition between Elk, Mule Deer and White-tailed deer, IDFG, PhD project, \$10,250.
Aerial surveys and population ecology of pronghorn antelope in SE Idaho, IDFG, MS project, \$28,500.
Survival rates and aging criteria for elk calves, IDFG, MS project, \$9,250.
Identifying key habitats and spatial requirements: simultaneous analysis of home range and habitat selection, IDFG, PhD project, \$10,250.
Population dynamics and management of Kodiak Bears, Kodiak Brown Bear Trust, Anchorage, AL, PhD project, \$8,132.
- 2004 Competition between Elk, Mule Deer and White-tailed deer, IDFG, PhD project, \$20,500.
Aerial surveys and population ecology of pronghorn antelope in SE Idaho, IDFG, MS project, \$20,500.
Survival rates and aging criteria for elk calves, IDFG, MS project, \$18,500.
Elk Metapopulation in Idaho, Rocky Mountain Elk Foundation, PhD project, \$17,836.
Identifying key habitats and spatial requirements: simultaneous analysis of home range and habitat selection, IDFG and US Forest Service, \$29,000.
Population dynamics and management of Kodiak Bears, Kodiak Brown Bear Trust, Anchorage, AL, \$10,924.
CRISSP, junior author with a dozen faculty on proposal for Center for Research on Invasive Species and Small Populations, funded by SBOE, \$979,000.
- 2003 Competition between Elk, Mule Deer and White-tailed deer, IDFG, PhD project, \$18,500.
Aerial surveys and population ecology of pronghorn antelope in SE Idaho, IDFG, MS project, \$20,500.
Survival rates and aging criteria for elk calves, IDFG, MS project, \$18,500.
Elk Metapopulation in Idaho, IDFG, PhD project, \$18,500.
- 2002 Assessing Genetic Measures of Elk Metapopulations for the Idaho, Rocky Mountain Elk Foundation,

- \$14,169.
- Modeling Elk Habitat Relationships in the Clearwater Basin, Potlatch Corp, final \$19,480 support for PhD project.
- Importance of Beach Buffers to Wildlife Populations in SE Alaska, US Fish and Wildlife Service, additional \$25,000.
- Lewis Woodpecker Nesting Ecology on Boise National Forest, USDA Forest Service, additional \$15,500.
- Species Assessment for Lewis Woodpecker in Rocky Mountain Region, USDA Forest Service, \$11,011.
- Effects of beach buffer width to avian communities in Southeast Alaska, US Fish and Wildlife Service, additional \$186,000 funded but all dollars to be administered by Juneau Office.
- Review impacts and consequences of various harvest strategies and management goals for elk in the state of Washington, Washington Dept. of Fish and Wildlife, additional \$12,200, [joint project with Dr. James Peek].
- Landscape models of selected vertebrates of conservation concern in Interior Columbia Basin, USDA Forest Service, additional \$31,480 [but currently held up by Bush].
- Competition between Elk, Mule Deer and White-tailed deer, IDFG, PhD project, \$18,500.
- Aerial surveys and population ecology of pronghorn antelope in SE Idaho, IDFG, MS project, \$20,500.
- 2001 Estimating Browse Production and Modeling Elk Populations for the Clearwater Elk Habitat Initiative, Rocky Mountain Elk Foundation, \$25,000.
- Modeling Elk Habitat Relationships in the Clearwater Basin, Potlatch Corp, \$19,480 support for student project.
- Lewis Woodpecker Nesting Ecology on Boise National Forest, USDA Forest Service, \$15,500.
- Species Assessment for Lewis Woodpecker in Rocky Mountain Region, USDA Forest Service, \$11,011.
- Effects of beach buffer width to avian communities in Southeast Alaska, US Fish and Wildlife Service, \$206,414 funded but all dollars to be administered by Juneau Office.
- Review impacts and consequences of various harvest strategies and management goals for elk in the state of Washington, Washington Dept. of Fish and Wildlife, \$48,200, [joint project with Dr. James Peek].
- Landscape models of selected vertebrates of conservation concern in Interior Columbia Basin, USDA Forest Service, \$51,480.
- 2000 Estimating Browse Production and Modeling Elk Populations for the Clearwater Elk Habitat Initiative, Rocky Mountain Elk Foundation, \$30,000.
- Lewis Woodpecker Nesting Ecology on Boise National Forest, USDA Forest Service, \$13,600.
- Importance of Beach Buffers to Wildlife Populations in SE Alaska, US Fish and Wildlife Service, \$40,000.
- Estimating Log Density, USDA Forest Service, \$24,496.
- Metapopulation of Elk in Idaho, Idaho Dept. of Fish and Game, \$13,000.
- 1999 Diet and Nutritional Status of Tule Elk at Point Reyes National Seashore, Rocky Mountain Elk Foundation, \$9,000.
- Mule Deer Habitat Selection by Fawns, Idaho Dept. of Fish and Game, \$12,780.
- Avian Relations with Dying and Dead Trees at Blacks Mountain Experimental Forest, USDA Forest Service, \$18,500.
- Estimating Log Density, USDA Forest Service, \$15,000.
- Metapopulation of Elk in Idaho, Idaho Dept. of Fish and Game, \$13,000.
- 1998 Diet and Nutritional Status of Tule Elk at Point Reyes National Seashore, Rocky Mountain Elk Foundation, \$12,000.
- Mule Deer Habitat Selection by Fawns, Idaho Dept. of Fish and Game, \$13,000.
- Avian Relations with Dying and Dead Trees at Blacks Mountain Experimental Forest, USDA Forest Service, \$7,000.
- Estimating Log Density, USDA Forest Service, \$68,054.
- Home Range Program Revision, USDA Forest Service, \$45,000.
- Metapopulation of Elk in Idaho, Idaho Dept. of Fish and Game, \$13,000.
- 1997 Diet and Nutritional Status of Tule Elk at Point Reyes National Seashore, Rocky Mountain Elk Foundation, \$18,000.

- Mule Deer Fawn Survival, Idaho Dept. of Fish and Game, \$13,000.
 Estimating snag density, USDA Forest Service, \$15,000.
- 1996 Population size, survival rates and recruitment of Kootenay Lake white sturgeon, Idaho Dept. of Fish and Game, \$5,000.
 Estimating snag density, USDA Forest Service, \$15,000.
- 1995 Audit of Telephone Survey of Big Game Harvest Success, Idaho Dept. of Fish and Game, with Kirk Steinhorst (Statistics) and Nick Sanyal (Resource Rec. and Tourism), \$20,000.
 Mule Deer Fawn Survival, Idaho Dept. of Fish and Game, \$13,000.
 Population Dynamics and Habitat Selection of Great Blue Herons Along the Columbia River on the Hanford Reservation, Battelle Northwest, \$36,000.
- 1994 Evaluating Population Viability on National Forests, USDA Forest Service, \$25,000.
- 1993 Inventory and Monitoring of Neotropical Birds on the Payette National Forest, USDA Forest Service, with Mike Scott, \$62,000.
- 1992 Monitoring Woodpeckers and Snags on National Forests, USDA Forest Service, \$90,000.
 Effectiveness Monitoring for Elk Populations, USDA Forest Service, \$7,600.
 Influence of Habitat Complexity on Trout Population Dynamics, USDA Forest Service, \$9,876.
 Flying Squirrel Use of Nest Boxes, USDI BLM, \$2,000.
- 1991 Flying Squirrel Use of Nest Boxes, USDI BLM, \$5,000.
 Carnivore Scat Analysis Program, U.S. Fish and Wildlife Service, \$5,000, with Brian Kelly.
 Distribution, Spatial Ecology, and Genetic Variation of Sympatric Carnivores in Northeast Mexico, Bob and Bessie Welder Wildlife Foundation, approx. \$10,000 per year for 3 years, with Mike Tewes and Philip Tanimoto.
- 1990 Lion Census Methods for Masai Mara Game Reserve, Kenya, World Wide Fund for Nature, approx. \$7,000 per year for 2 years, with Joseph Ogutu.
 Wildlife and Fisheries Management Curricula, FAO, \$28,000, with Lars Ramberg.
- 1988 Indicators for Wilderness Wildlife, USDA Forest Service, \$15,000.
 Wilderness Wildlife, College of Forestry, Wildlife, and Range Sciences (McIntire-Stennis), \$7,000.
 Remote Sensing Challenge Grant, USDA Forest Service, \$23,000.
 Taylor Ranch Air Quality, EG&G, \$15,000.
 Bobcat Population Index, U.S. Fish and Wildlife Service, \$5,000.
- 1987 Coyote Functional Response, USDA, APHIS, \$16,085, with Brian Kelly.
 Aerial Mule Deer Census, Idaho Department of Fish and Game, \$31,050, with Bruce Ackerman.
 Aerial Elk Census, Idaho Department of Fish and Game, \$5,000.
 Boreal Owls, USDA Forest Service, \$37,000, with Greg and Pat Hayward.
 Boreal Owls, Idaho Department of Fish and Game, \$5,300, with Greg and Pat Hayward.
 Big Game Habitat Models, USDA Forest Service, \$9,500.
- 1986 Evaluation of Mule Deer Census Procedures, Idaho Department of Fish and Game, \$11,000.
 Aerial Census of Lochsa Elk Population, Idaho Department of Fish and Game, \$5,000.
 Distribution of Boreal and Great Gray Owls in Idaho, Idaho Department of Fish and Game, \$6,000.
 Functional Response of Coyotes to Changing Prey Abundance, U.S. Fish and Wildlife Service, \$12,303.
 Survival Rate and Growth of the Gray's Lake Whooping Crane Population, U.S. Fish and Wildlife Service, \$5,250.
 The Potential Use of Birds to Prevent Outbreaks of Western Spruce Budworm, College of Forestry, Wildlife and Range Sciences (McIntire-Stennis), \$6,000.
 Ecology of the Boreal Owl, USDA Forest Service, \$22,000, with Greg and Pat Hayward.
 Potential of Nest Boxes for Monitoring and Managing Boreal Owl Populations, USDA Forest Service, \$15,000, with Greg and Pat Hayward.

- Boreal Owl Ecology, Max McGraw Foundation, \$800, with Greg and Pat Hayward.
- 1985 Boreal and Great Gray Owls in Idaho, Idaho Department of Fish and Game, \$6,000.
Aerial Census Methods for Elk, Idaho Department of Fish and Game, \$7,200.
Mule Deer Aerial Census Methods, Idaho Department of Fish and Game, \$18,000.
Trumpeter Swan Population Ecology, Wyoming Game and Fish Department, \$2,000.
Big Game Habitat Models, U.S. Forest Service, \$9,500.
- 1984 Home Range Analysis, Idaho Department of Fish and Game, \$5,000.
Survey of Boreal and Great Gray Owls in Idaho, Idaho Department of Fish and Game, \$6,000.
Mule Deer Aerial Census Methods, Idaho Department of Fish and Game, \$18,000.
Aerial Census Methods for Elk, Idaho Department of Fish and Game, \$25,485.
Management of Boreal Owls with Nest Boxes, U.S. Forest Service, \$10,000.
- 1983 Status of Boreal Owl in North-Central Idaho, U.S. Forest Service, \$45,000.
Development of Aerial Census Methods for Elk, Idaho Department of Fish and Game, \$16,000.
- 1982 Impact of Avian Predation on Western Spruce Budworm, U.S. Forest Service, \$60,033.
Development of Aerial Census Methods for Elk, Idaho Department of Fish and Game, \$11,555.
- 1981 Impact of Avian Predation on Western Spruce Budworm, U.S. Forest Service, \$50,000.
Management of Avian Predation on Western Spruce Budworm, U.S. Forest Service \$15,000.
Develop Baseline Data for Research Natural Area in Boise Basin Experimental Forest, U.S. Forest Service, \$15,000.
Stomach Analyses of Avian Predators on Western Spruce Budworm, U.S. Forest Service, \$12,667.
Development of Aerial Census Methods for Elk, Idaho Department of Fish and Game, \$10,000.
- 1980 Avian and Mammalian Predation, U.S. Forest Service, \$65,707.
Owls of Idaho Primitive Area, University of Idaho Wilderness Research Center, \$3,620.
- 1979 Wildlife Resource Inventory, Bureau of Land Management, \$26,640.
Avian Predation, U.S. Forest Service, \$18,695.
Yosemite Peregrine Falcons, National Park Service, \$4,620.
Fish Habitat-Standing Crop Functions, U.S. Department of Interior, O.W.R.T., \$141,340, with R.G. White, J.H. Milligan, M.A. Brusven, and A.E. Bingham.
- 1978 Wildlife Resource Inventory, Bureau of Land Management, \$76,396.
- 1977 Orthene Study, U.S. Fish and Wildlife Service, \$15,830.
Wildlife Resource Inventory, Bureau of Land Management, \$48,237.
Dietary Selection, University of Idaho Research Council, \$3,000.
