*Workshop begins 7:00 pm on Monday, June 17 and ends at 2:00 pm on Friday, June 21.

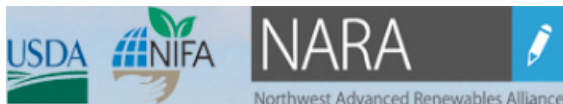

Optional pre-workshop training in water quality monitoring methods with IdaH2O on June 17 from 8:00 am to 4:00 pm, \$15 per registrant. For more information, visit www.uidaho.edu/cda/idah2o

What you will learn:

The University of Idaho's, award winning, McCall Outdoor Science School is seeking teachers to participate in our Summer Teacher Workshop. We will be exploring topics related to water resources, climate change and biofuels. You will be steeped in the pedagogy of problem-based learning, using technology and the outdoor environment.

What you gain:

- Professional Development Credits (up to 3)
- A \$400 stipend
- Strategies for how to incorporate problem-based learning, technology, climate change and biofuels into your curriculum to meet NGSS and Common Core requirements
- Four days on beautiful Payette Lake

University of Idaho
