

ENGINEERING FIRM SEEKS SELF-MOTIVATED CIVIL ENGINEERING GRADUATE

PARAGON Consulting, Inc. is seeking a Civil Engineering graduate to join our staff in Kuna Idaho.

Paragon Consulting, Inc. was established in June, 2006 to provide general Civil Engineering and Planning services to governmental agencies and the public throughout Idaho and the northwest. Engineering services focus on highway/roadway design, storm drainage design, construction management and other engineering services. Planning services include transportation planning, traffic modeling, capital improvement plan (CIP) preparation and other planning activities. PARAGON Consulting provides tremendous professional growth opportunities, challenging work and an excellent work environment.

Civil Engineering (Engineer-in-Training) duties include working with our professionals to develop plans using AutoCAD and AutoCAD Civil 3D software, preparing specification and contract documents, preparing engineering reports and studies, performing calculations and construction quantity estimates and other miscellaneous duties as necessary. If you would like to advance your career under the guidance of experienced leadership, consider joining PARAGON Consulting.

Qualified candidates should send a resume and cover letter to W. Joe Barton, PARAGON Consulting, Inc., 157, West 4th Street, Kuna Idaho 83634; email jbarton@paragonfbk.com; Fax (208) 922-9168.

PARAGON Consulting is an equal opportunity employer.
