

1. Procedures Effective Immediately

All classified positions that a unit decides to fill must be reviewed by Employment Services (HR) prior to any advertising or initiation of established procedures for filling vacancies. Employment Services will be responsible for ensuring that any layoff roster which has been developed for that position classification is utilized according to UI policy.

A temporary classified position is one that is established for a definite period: typically, the duration corresponds to the period of a grant or project and sometimes fiscal year funding. These positions are advertised and hired as contingent upon continuation of work and funding. If the funding ends or the work changes for a position specifically hired as temporary classified, there is no expectation for continued employment or eligibility for the lay-off roster. Specifically, the Request to Lay Off Classified Staff Form contained within this document and following steps do not apply to temporary classified positions contingent upon funding.

2. Definitions applicable to elimination of classified positions

Note: Terms in quotation marks (" ") are terms defined in this document and should be applied as defined here.

- a. "Classified position" means the job classification assigned to the position by HR as part of the UI classified staff employment system.
- b. "Elimination of a position" means that a classified position, not a person, has been identified, and the position will no longer be filled for the foreseeable future but at least for a period of one year from the effective date of the elimination.
- c. "Reduction of a position" is a reduction in the number of hours associated with a classified position (i.e. a reduction from 100% time to 75% time or a reduction from 75% time to 50% time). A reduction of a position constitutes a "layoff" and will be handled in the same manner as a position elimination.
- d. "Units" are determined by the office of institutional research and assessment. See attachment A for a list of units.
- e. "Insufficient funds" means that the unit does not have enough funds from all sources to sustain the current number of employees. Funds that by contract or appropriation are limited in application do not have to be factored into the evaluation of whether or not there are sufficient funds.
- f. "Insufficient work" means that the unit will accomplish its work with fewer employees and that temporary employees will not be used to accomplish the workload.
- g. "Layoff roster" is the list of all non-temporary employees who have been laid off and is maintained by Employment Services in HR.

- h. "Category" refers to the four groups listed below. Employees in category (4) are to be laid off before any in category (3) are laid off and so on. Within each category the employee with the lowest number of retention points is the first to be laid off.
- (1) Disabled war veterans
 - (2) Employees with permanent status in the class
 - (3) probationary employees who have permanent status in a lower class
 - (4) probationary employees without permanent status in any class.
- i. "Retention points" means the number of points a classified employee has earned according to the following formula:
- One point for each month of state service
 - One point for each month of such service rated satisfactory
 - One-half point for each month of such service rated above satisfactory.
- j. "Permanent status" means that the employee concerned has successfully completed the initial probationary period in a classified position.
- k. "Qualifying Offers" are offers of employment to persons on the layoff list that are at the location of the position held before the layoff and those positions which are permanently funded.
- l. "Selective certification" means that specific qualifications for a position are justified by an appointing authority in addition to the minimum qualifications for the class.¹ HR will maintain a list of title codes and position titles that meet the definition of selective certification.
- m. "State service" means credited state service as defined by Idaho Code § 67-5332.
- n. "Temporary position" is one that is established for a definite period, and that period cannot exceed three years. Typically, the duration corresponds to the period of a grant or contract. Irregular-help, student-help, graduate-assistant, and instructional-assistant positions, though not necessarily established for an explicit duration, are, for the purposes of this and related policies, not considered to be permanent ones.
- o. "Vacant position" is a position that is not held by a person and which UI in its discretion has decided to fill regardless of funding source.

3. Process for determining layoffs or non-renewals

Step 1: The unit administrator develops and recommends a plan for the elimination of positions and/or the reduction of positions in the unit to the vice president under which the unit is organized. Units reporting to the president/provost should make their recommendation to the provost. The plan for elimination/reduction of positions may be limited to or specifically exclude positions appointed using selective certification for bona fide occupational qualifications or appointed using specific options or minimum qualification specialties in a class. Inclusions and exclusions must include or exclude all positions in that class appointed under similar selective certification, or the same option or minimum qualification specialty and must be approved in advance by the unit administrator.

Step 2: Following approval of the plan by the vice president or provost, the unit administrator should take steps to ensure that notice is given to affected employees who are not classified employees. Notices should be delivered as much in advance of the effective date as practical.

In the case of temporary hourly employees, notice should be given at least 24 hours prior to its effective date. For exempt staff, notice must be provided by the president's office at least 60 days prior to the end of the term of employment (in most cases no later than April 2). For non-tenured faculty notice must be provided according to the time periods listed in FSH 3900B.²

Step 3: If classified positions are to be eliminated or reduced, identify the classifications that have insufficient work, insufficient funds, or are being eliminated/reduced due to a reorganization of the unit.

Step 4: Complete the information on the Request to Layoff Classified Staff form on page 6 of this implementation guide. The administrator should *not* inform any classified staff member of potential layoff. The person to be laid off is determined by category and number of retention points by Employment Services in HR. Employment Services will review the position elimination/reduction request and respond to the unit administrator.

Step 5: Following determination by Employment Services (HR) of which person or persons in each classification is/are to be laid off, Employment Services (HR) will prepare appropriate notices for the affected classified employees and give them to the unit administrator for delivery. The notice must be delivered at least 2 weeks (14 calendar days) before the effective date of the layoff.

4. Layoff Policy: Implementation of FSH 3930

a. Classified positions may be eliminated when there is insufficient work or insufficient funds or in the event of a reorganization of a unit.

² A non-tenured faculty member must be notified: a) not later than March 1 of the first full academic year of service if the appointment is not to be renewed at the end of the academic year or, if a one-year appointment terminates during an academic year and is not to be renewed, at least three months in advance of its termination; b) not later than December 15 of the second full academic year of service if the appointment is not to be renewed at the end of that year or, if the appointment terminates during an academic year and is not to be renewed, at least six months in advance of its termination; c) at least 12 months before the expiration of an appointment after two or more full academic years of service.

b. If the elimination of a position results in the layoff of a classified employee or employees, layoffs occur within the unit, according to category and retention points. When determining retention points, any month for which there is no evaluation will be counted as a satisfactory month and given one point.

c. Early consultation among the unit administrator and Employment Services (HR) is essential to ensure the correct identification of positions to be eliminated, and that the assignment of category and retention points is supported by the records maintained by HRS. Any employee who would like to have their retention points audited, should contact the Director of Human Rights, Access and Inclusion, 885-4285.

d. Effect of Layoff. At the time Employment Services (HR) prepares the notice of layoff, Employment Services will also make every effort to place the employee in a position of the same classification and pay grade. If another position is not available, the employee's name is placed on a layoff roster. An employee who resigns voluntarily, is terminated for cause, or fails to satisfactorily complete the required probationary period is not eligible to be placed on the layoff roster. Further, employees who are appointed to positions that are contingent on the availability of funds and who are in a class affected by a layoff have no preference for reemployment and their names are not placed on the layoff roster.³

e. A reduction of a position constitutes a layoff and will be handled in the same manner as a position elimination. If a unit decides to reduce a classified position, Employment Services (HR) will produce a list of all classified employees within that position class in the unit, assign retention points within categories, as defined in the UI classified staff layoff policy, and the employee with the smallest number of retention points will be offered the reduced position. If eligible, the employee who takes the reduced position will be placed on the layoff roster and have re-employment rights to a non-reduced position. The only exception to this process will be if the incumbent chooses to remain in the reduced position; this will be allowed.

f. Reemployment from the layoff roster.

1) An employee whose name is on the layoff roster and who is qualified for a vacant position must be offered reinstatement to a position in the class from which he or she was laid off, or in a lower class in the same series, or in a class in which the employee has held permanent status with UI, before any other person may be promoted, transferred, reinstated, or hired for that class by any UI unit. The employee will be eligible for qualifying positions that are posted after receiving notification of layoff.

2) Category and retention points determine preference for reemployment from layoff rosters. Persons on the layoff roster in category (1) are to be reemployed before any persons in category (2) and so on. (See definitions) Within a category the employee with the largest number of "retention points is to be offered reemployment first. If two people are in the same classification and category and have the same number of retention points the offer of reemployment will first be made to the person who has been on the list the longest.

3) Laid off employees will remain on the layoff roster until they decline three qualifying offers of employment or for one year, whichever occurs first. In the University's discretion, employees on the layoff roster may be offered positions at locations different from the one they worked at before layoff. Any such offer will not be considered a qualifying offer of employment for purposes of this paragraph.

³ comparable to IDAPA 15.04.01.146

In addition, offers to fill positions for which the employee is certified, but is at a lower pay grade or temporary positions are not qualifying offers. An employee may accept a non-qualifying offer and remain on the layoff roster until a qualifying offer is accepted or 12 months, whichever occurs first.

5. Interpretation of specific circumstances

If during the implementation of a layoff this policy and interpretive guidelines do not address the specific circumstances raised, Employment Services (HR) will consult the Rules of the Idaho Division of Human Resources and Personnel Commission for guidance. These rules will be applied in so much as practical, as required by the Regents of the University of Idaho policy applicable to UI classified staff, RGP II D1b⁴.

⁴ b. Classified Employees -- University of Idaho

Classified employees at the University of Idaho are subject to the policies and procedures of the University of Idaho for its classified employees. Such policies and procedures require approval by the Board, and should be, in so much as practical, parallel to the provisions provided for state of Idaho classified employees in Chapter 53, Title 67, Idaho Code.
