

Highlighted lots will be closed for significant maintenance for 3-4 days each, between June 15, and July 1.

Additional lots will be closed for shorter time periods throughout the summer break for cleaning, painting, and crack repair. It is required that all vehicles relocate temporarily so that this work can be completed.

Completion of work will be weather dependent. Exact dates/times for closures will be posted at lot entrances in advance.

# Summer 2013 Parking Lot Maintenance
