Leading Idaho: The University of Idaho Strategic Plan

2011-2015
VISION

We will be a leader among land-grant and flagship institutions in the 21st century by promoting an entrepreneurial spirit; embracing the contributions of multiple cultures, identities, and perspectives; and bringing together the talents and enthusiasm of faculty, staff, and students. We will be widely recognized as a creative university that is both environmentally and fiscally sustainable and is an engaged partner in addressing the changing needs of our stakeholders in Idaho, the nation, and the world.

MISSION

The University of Idaho is the state’s flagship and land-grant research university. From this distinctive origin and identity comes our commitment to enhance the scientific, economic, social, legal, and cultural assets of our state, and to develop solutions for complex problems facing society. We deliver on this commitment through focused excellence in teaching, research, outreach, and engagement in a collaborative environment at our residential main campus, regional centers, extension offices, and research facilities throughout the state. Consistent with the land-grant ideal, our outreach activities serve the state at the same time they strengthen our teaching as well as scholarly and creative capacities.

Our teaching and learning includes undergraduate, graduate, professional, and continuing education offered through both resident instruction and extended delivery. Our educational programs are enriched by the knowledge, collaboration, diversity, and creativity of our faculty, students, and staff.

Our scholarly and creative activities promote human and economic development, global understanding, and progress in professional practice by expanding knowledge and its applications in the natural and applied sciences, social sciences, arts, humanities, and the professions.

ROLE

Our commitment to focused excellence includes developing and delivering pre-eminent statewide programs. These programs are delivered in the Morrill Act-mandated primary emphases areas in agriculture, natural resources, and engineering; and sustaining excellence in architecture, law, liberal arts, sciences, education, business and economics, and programs in medical and veterinary medical education, all of which shape the core curriculum and give meaning to the concept of a flagship university.
