Grade Arch 253 _______

Grade Arch 254 _______

Current Cum. GPA _______

Students may not enroll for Arch 353 until being admitted into the Professional Program. Notification of admission will be made by e-mail no later than July 1. In the case that you are placed on a waitlist, and a vacancy occurs on or before Friday of the first week of classes, you will be notified that you have been accepted into the program, and you will be allowed to register. In order to satisfy financial aid requirements for full-time status, it is recommended that you enroll in at least 12 credits, and adjust enrollment upon admission to the program.

**Transfer Students** must apply to and be admitted to the University of Idaho prior to admission to the professional program. Official transcripts are reviewed for placement in the appropriate courses.

**This application and portfolio are due in the Architecture Office, AAS 207, on or before 4:00pm on Thursday, May 11, 2017.** See the reverse of this form for addresses and portfolio requirements for admission to the Professional Program.
Portfolio Requirements

All students who have completed the pre-professional program or equivalent elsewhere, and are applying for admission to the professional program must submit a portfolio of art, architectural graphics, and design work.

FORMAT: 8 ½” x 11”.

LENGTH: Up to ten pages (front and back = 20 pages). No slides or discs.

CONTENTS: The goal of the portfolio is to provide a balanced presentation of the full range of creative work accomplished in preparation for admission to the professional architecture program. Work should include examples of at least six different projects. For students enrolled at the University of Idaho, this work should come from any of the required program courses (Art 112, Art 121, Arch 154, Arch 253, and Arch 254). Transfer students should include examples from equivalent courses. The remaining pages may be used to present work of the student’s choice. In addition to the work, students are encouraged to provide brief written explanations of each project in the context of a well-organized portfolio.

(Optional) Applicants may also include a one-page personal statement to explain any exceptional circumstances to be considered by the committee.

Admissions Process

Admission to the professional architecture program is based on a careful review of the portfolio, satisfaction of pre-requisites and grade point average (GPA). The portfolio is evaluated based on design resolution, design communications and design of the portfolio. The minimum GPA for admission is 2.5. The Architecture Admissions Committee carefully reviews all applications and makes recommendations based on approximately 50% for the portfolio and 50% for GPA.

For transfer students, placement in the program is also based on satisfying equivalent course work as demonstrated in the academic transcript and portfolio.

The completed application is due at the address below on, or before 4:00pm on Thursday, May 11, 2017.
