MASTER OF SCIENCE in ATHLETIC TRAINING

CURRICULUM DELIVERY
We offer a 24-month program featuring 10-week summer semesters. The program is designed to allow maximum flexibility for the fall and spring hybrid education classes with clinical rotations in various settings across the country.

PRE-REQUISITE WORK
4 credits of human anatomy
4 credits of human physiology
First aid/CPR Certification

COST OF THE PROGRAM
The MSAT is around $23,000 per year. This includes books (must sign an agreement to opt-in) and is below the national average. Students must pay a $500 non-refundable seat deposit to reserve a spot in the program.

HOW TO APPLY
Students should complete an application through the AT CAS Admissions Portal. The program begins during the summer. Complete by October 31 for priority admissions.

PROGRAM STRENGTHS
We have a cohesive curriculum of didactic and clinical coursework, focusing on the best clinical practices and patient outcomes that produce practice based evidence. We have individualized clinical rotations in many athletic training sites across the nation, including our new 1500 square foot teaching clinic.

POINTS OF DISTINCTION
With an advanced musculoskeletal disorders and disease curriculum that brings research to practice, students are given expert instruction in traditional and novel rehabilitation techniques. All clinical rotations are designed to match the unique career aspirations of each student.

MSAT students (left) can complete their clinicals in our new Integrated Sports Medicine and Rehabilitative Therapy (ISMaRT) Clinic during the fall and spring semesters.
