A Word From Our Pro

Well believe it or not spring is right around the corner and like you, we are excited to get the season started. The golf shop is now open from 8:00 am to 5:30 pm weekdays as well as 10:00 am to 4:00 pm on the weekends starting on Saturday, March 11th, for those individuals looking to purchase a season pass, sign up for pro-ams, see the new layout of the golf shop, or just want to talk golf. We are planning to open the course Friday, March 17th. This is obviously a tentative date so please call or check our Facebook page for the latest updates on course conditions. You’ll be glad to know that rates for 2017 haven’t changed. Our goal is to encourage play, extend value to our patrons, and get you out on the course playing as soon as possible.

Doug Tyler, PGA
Director of Golf
From the Golf Shop

*All 2017 Golf Pass receive 1 FREE lesson from Loren Jeglum, 1st Assistant Golf Professional

The Pro-Am Sign Up sheet is now available. There is a total of 18 Pro-Am's that I will be playing in this year. Sign up now to reserve your spot to play at Circling Raven, Coeur D'Alene Resort, or Manito Country Club to name a few. If we have enough interest we will support 2 teams for each event.

From the Grounds Crew
Another golf season is coming I think, although there is still a lot of snow out there. We’ve been lucky so far as we haven’t lost any trees. We do have an extreme amount of snow mold throughout the course and we will treat the greens as soon as the weather permits. During the first part of March the maintenance crew members will be out removing all the debris and cleaning up the course. We kindly ask that you help us out and alert us of your presence since sometimes we are not aware of your attendance. Also, wet areas are extremely susceptible to erosion so take notice and try to avoid any wet or tracked areas even if not marked. Utilize lift, clean, and place through the green and replace all divots (especially beaver tails). One may also encounter loose gravel, coins. Etc. in close mown areas. It would be appreciated if you could clean up or report to the clubhouse these conditions. Finally, through the help of the course improvement tournament we have a new aerator. Which should greatly improve green drainage, allowing us to cut “easier” cups throughout the season. We currently anticipate greens aeration in late May.

Thank you for your help and support.

Grounds Grew
