Program Overview
The ALCP offers this three month study abroad program for students to develop their English language, learn about American culture, and explore the U.S. Pacific Northwest Region.

Curriculum
We offer a content-based curriculum with modules to connect learning in the classroom with experiential learning in the field:

- English for STEM
- English for Psychology
- English for Academic Purposes
- English for Business and Professional Purposes

Excursions
While developing their English, students will explore the local community and Idaho through field trips and outdoor excursions, like hiking, camping, and river rafting.

The mission of the ALCP is to provide linguistically diverse speakers of English with the necessary language and culture skills to successfully navigate university environments in the U.S.

Curriculum

Work with ALCP Faculty and Staff to learn and apply English in the classroom and on field trips.

- **July: Intermediate English**
  - Develop skills such as writing, listening, speaking, leadership and academic skills.
  - Communicate in the classroom with fellow international students.
  - Prepare vocabulary for summer excursions.

- **August: Applied English**
  - Apply your English through interactive field trips.
  - Plan your own activities and travel using your English.

- **September: Advanced English**
  - Attend intermediate/advance English courses with other international students.
  - Develop professional and academic English.
