Time to Complete a Course
Plan for a minimum of three months to complete most ISI courses. Students work at their own pace within limits set by instructors. Instructors will grade assignments within three weeks from the date of receipt but are not required to grade faster than the maximum number of assignments per week listed in the Course Rules on Blackboard. Students must complete all assignments and exams to be eligible for a final course grade. Courses are designed for the student who works well independently with limited interaction with instructors. Exams require a proctor. Submit exam proctor request a minimum of two weeks before taking an exam. Students living outside of the United States must use an educational testing center.

Grades & Transcripts
Students who have a personal deadline (e.g., graduation, program admission) must submit all assignments and exams at least one month before their deadline to allow for processing. Transcripts can be purchased from the credit-granting institution’s registrar one business day after a student receives a course completion email from ISI. U of I does not send final transcripts.

To determine the credit-granting institution (U of I, LCSC or ISU), as listed in the course’s section description, refer to the abbreviation listed next to the course. To determine how your U of I course will appear on a transcript, check with the Registrar of the credit-granting institution. For contact information, see vandals.uidaho.edu/cooperating-institutions. Unofficial transcripts are available on VandalWeb for U of I sponsored ISI courses and transferred credits.

The University of Idaho DOES NOT calculate ISI course credits or transfer credits into the institutional GPA. Students at other universities may contact their registrar to find out if ISI course grades will be calculated into their GPAs. Most colleges and universities have transfer credit limitations.

Admission
Students can register for ISI courses without applying for admission to any of the cooperating schools. Admissions requirements for these institutions are not granted. To determine if your ISI course will be calculated into your GPA, most colleges and universities have transfer credit limitations.
