## **Course Introduction**

This course will consist of reading text and handouts as well as lectures. Assignments primarily consist of applying the material. Some assignments utilize case studies. You will often be asked to add your thoughts. Some of the material is straight forward, and there are specific answers for which I am looking. I think these will be obvious. Others, such as writing treatment plans, require you to think through the assignment using materials and adding your thoughts. As long as I see the effort and following the basic guidelines I provide, you'll do fine. I like to see creative approaches.

## **Course Objectives**

The goals of this class are:

- 1. Gain an understanding of the basics of record-keeping, including legal aspects and how record keeping can help you and your client
- 2. Experience record keeping from a client perspective as well as a counselor perspective
- 3. Understand record keeping requirements for the State of Idaho
- 4. Understand the basics of Case Management
- 5. Learn how to access community resources for case management.

Upon completing this course, I expect students to be prepared for entry-level employment in the field of addictions counseling and/or case management.

## Lesson 1 Basics of Documentation

#### Lesson Objectives

The course is arranged into two sections. Part 1: Documentation Part 2: Case Management

## **Reading Assignment**

Watch the short introductory video lecture titled Lecture 1.mp4

#### Introductory Lecture

Paperwork is essential, although often not the favorite component of the job. If not documented, then later judgment may be that it did not happen. Paperwork serves as your memory and keeps you focused on the treatment goals, a record of what was discussed in the prior session, and the progress being made. Forms that start the process:

- Intake form
- Release of information
- Upon meeting with a client:
- Clients determine the goals
- Review progress that is being made in the treatment
- Discharge plan to guide treatment

Requirements for forms:

- Must fill out forms in ink.
- Every line on a form must be filled in, so someone else can't fill in blanks later.
- If something is changed on a form, draw a line through the change, and then the counselor and the patient initial and date the change.
- If anything is added, add the information and then initial and date the additions.
