

ECHO IDAHO

Hepatitis C

Specialist support for medical teams treating HCV

Led by a panel of subject matter experts based in Idaho, this series will help build your confidence as you learn best practices for treating hepatitis C (HCV).

Connect with peers from around the state to discuss what really works and get feedback on patient cases. Each drop-in session is designed to be collaborative, engaging, and immediately applicable to your practice.

Interdisciplinary panel includes Family Medicine Specialist, Hepatologist, Gastroenterologist, Pharmacist, and HIV Specialist.

What does ECHO Idaho offer?

- Free CME for health care professionals
- Collaboration, support and ongoing learning with experts and other physicians/care teams
- Better care for patients in their home community

How does it work?

- Join 1-hour online video conferences for 12 scheduled sessions
- Sign up to participate to receive regular emails with login information, agendas and resources. Discuss and share:
 - Case presentations by participants
 - A brief, high-yield didactic presentation by infectious disease experts.

**12 ECHO SESSIONS
HELD VIRTUALLY**

**2nd and 4th Mondays
Apr. 12 - Sept. 27, 2021
Noon to 1 p.m. Mountain time
11 a.m. to noon Pacific time**

Audience: The target audience is primary care providers, but all clinicians are welcome.

Cost: Participation in ECHO Idaho is free for clinicians and organizations!

Why ECHO Idaho Hepatitis C?

Hepatitis C is a leading cause of liver disease and liver-related mortality in the United States.

Even though treatments are now well-tolerated and can cure hepatitis C, in Idaho, access to treatment is limited and screening rates remain low.
