

4-H Art Matrix

For *Get Started in Art* and *How to Teach Art to Children*

By: Erika Thiel & Maureen Toomey

Get Started in Art provides activities to fulfill the Idaho 4-H requirements for a visual arts project. To supplement *Get Started in Art* use activities from the *How to Teach Art to Children*. *How to Teach Art* offers specific activities on the Elements of Design. The matrix shows the overlaps of the two art books.
