NO COST TO ATTEND!

What is STAC?

Idaho 4-H State Teen Association Convention (STAC) is a priceless opportunity for youth grades 8–12 to explore career opportunities and prepare for a lifetime of success with other Idaho teens.

What is Virtual STAC?

Due to the COVID-19 pandemic, we are moving to an online virtual format. It is our goal to continue to provide a high-quality, interactive opportunity to preserve the integrity and mission of STAC.

During this event we nominate, elect and install the 2020-21 State 4-H Officers and District Representatives. A schedule and timeline was developed to include all proceedings and business meetings. In addition, we kept the event true to the on campus experience by offering workshops, service learning and youth networking opportunities.

What to expect at Virtual STAC?

- Guest speaker - Kent Julian
www.MotivationalYouthSpeaker.com/videos
- Daily Schedule Includes
 - 90-minute sessions will be offered each morning including business meetings, speakers, activities and more. Each session will be hosted by a team of teens
 - 60-minute afternoon sessions where participants can choose workshop or service opportunities
- Clover Connection Celebration
 - If we are in "Stage 4" of the Idaho Rebounds guidelines by June 25, a celebration will be held after the morning session in a face-to-face format. District, county and/or multi-county groups could come together at a common place to celebrate STAC, gather with friends, play games and enjoy a pizza lunch.

Registration and Other Information?

- An Information Packet including registration details, election process and timeline, workshop and service options, and a daily schedule will be available on **May 15**. All Virtual STAC registration will be through 4-H Online. Teens must be in approved status through 4-H Online to attend.
