Beef=\$1.32

Days on feed: 157

Weigh in: March 12

Sand is going to be provided now instead of the dirt floor in the stall spaces at the Fair. Don't leave water buckets in the stall spaces as it will make it very muddy when they spill. A good idea to bring mats in. You can still bring in sawdust if you wish, but will need to haul it out and leave the area clean when the animals load out. Please keep in mind you need to keep the aisles clean from manure as well. When the animals go to water, if they make a mess, clean it up.

Chutes can come in to the Fairgrounds **no earlier** than Friday, August 12. Your stall assignments will probably be the same as last year. It was mentioned that it was nice to have the breeding animals by their other animals so they can keep track of kids and feeding easier.

Please remind parents that weigh in is on Tuesday, Aug 16 from 4-5:30 pm.

ANIMALS SHOULD NOT BE THERE BEFORE 4:00 pm on Tuesday, Aug 16.

Especially important this year as the Dairy animals will be finishing up their shows this year and loading out.

At weigh in-All trailers will come off of Hiland. There needs to be one way traffic, coming in from the east and going out to the west. **Your gear needs to either come in earlier, or on a different day.** As hot as it is, we need to keep the line moving. There is not time for people to be unloading and packing things in. It is hot and the animals standing in trailers are losing weight.

Parking is always an issue in the back lot. Keep the trailers parked out in the parking lot by the race horse barns.

There will not be ultrasounds done.

Hoof trimmings are available.

Lex Smith will be in Malta on July 16th. Call Cami Schumann if interested.

Cody Smith will be at Ryan Taylor's on July 20. Call if interested.

\$15/head.
