Program Description
Come learn from your neighbors about forest management. Often we can benefit the management of our own land by learning from the experiences, ideas, and lessons-learned of other forest landowners. What objectives have they managed for? How have their approaches worked for them? What have they learned from their management experience? What are the various options for management based on diverse landowner goals and objectives?

Tour will begin with a brief introduction at 9:00 a.m. and end by 4:00 p.m.

Bring a brown bag lunch, snacks, & appropriate clothing for rain/cold & footwear for walking in the woods. High clearance vehicle if you have one, if not, carpooling available.
