	2021				\$375 2 pens sold
Broiler	2020				\$450 1 pen sold
	2021				\$750 1 pen sold

This information is shared to help you in the selection of your 4-H/FFA market animal. It gives you a reference as to what your animal should weigh at initial weigh-in and an idea of what you might expect for an average daily gain for finishing your animal.

It also, gives you an idea of what you might be able to expect at the market animal sale. These are not guaranteed numbers and will fluxuate from year to year.

Many of the animals that were sold on the high end brought the higher values because of the work the 4-H/FFA member did in bringing their buyer to the sale. Keep this in mind as you invite buyers to the sale.

For the 2021 4-H year the weigh-ins are as follows, along with the number of days in the feeding period to use in your ADG estimates and record keeping

Species	Initial Weigh-in Date	Final Weigh Date	Feeding Period
Beef	5-Mar-22	17-Aug-22	165
Swine	7-May-22	16-Aug-22	101
Sheep/Goats	11-Jun-22	16-Aug-22	66
