How to Plan & Manage a Timber Harvest on Your Property

Thursday

March 21, 2019
University of Idaho Extension
2200 Michigan Ave.
Orofino, Idaho
6:00 - 8:30 pm

Sign-in at 5:30pm
Program Description

It’s a rewarding experience to manage your own forest land. Active management of your forest can improve forest stand conditions, increase biodiversity and habitat for wildlife, and provide a substantial economic return. Whether you plan to hire a consultant to manage the sale, or conduct it yourself, this workshop will benefit those with little or no experience. This workshop will provide the basics for planning & managing a successful harvest & sale, as well as provide resources for where to go for more in-depth information. Several printed handouts will be provided.

Program Agenda
