Skills

Identifying Idaho's Trees

Because we have such a varied range of geography, soils, and precipitation patterns, Idaho has a wider variety of native trees than most other Rocky Mountain states. The first step in caring for these trees, whether they be in a landscape or in a forest, is correct species identification.

Distinguishing between Idaho's trees can be a daunting task for beginners. Through a combination of images and live samples, *Identifying Idaho's Trees* will help participants quickly identify Idaho's most common native trees, including:

- lodgepole pine
- ponderosa pine
- western white pine
- western larch
- Douglas-fir
- Engelmann spruce
- grand fir
- subalpine fir
- western redcedar

- western hemlock
- pacific yew
- black cottonwood
- quaking aspen
- red alder

Identifying Idaho's Trees will be held at the following dates and locations:

Sandpoint

Saturday, December 1, 2018 (9am - 12pm)
Ul Sandpoint Organic Agriculture Center
10881 N Boyer Road

Coeur d'Alene

Monday, February 4, 2019 (6pm - 8pm)
Kootenai County Administration Building
451 N Government Way
(lower level - enter by Vehicle Licensing)

St. Maries

Thursday, April 11, 2019 (1pm - 4pm)
Federal Building Meeting Room
Corner of 7th Street & College Avenue

Turning Idaho Trees into Wreaths . . .

The Sandpoint session of this program will be followed by an afternoon workshop at the same site on making wreaths. Registration for that program is separate and available online at "www.uidaho.edu/extension/forestry/programs" or through the UI Extension Office in Bonner County (contact info on this flyer's registration pane).

To ensure an effective learning environment, each session is limited to 40 participants. Please return the registration form on the back of this flyer as soon as possible to assure your place and help us plan. A \$10 registration fee includes handouts and refreshments. For registration questions, contact the University of Idaho Extension Office listed for the program you wish to attend.

An Idaho
Forest Stewardship Program
