Strengthening
Forest Stewardship
Skills

Forestry Shortcourse

Many Idaho forest landowners desire a better understanding of "what makes their forest tick" and how they can better manage their forest property. The Forestry Shortcourse will help you:

- understand basic principles of forest ecology and silviculture,
- apply that knowledge to your forest to meet your goals, and
- develop a written forest management plan for your property.

Forestry Shortcourse Outline

Session 1: tree identification, identifying forest management goals, forest management planning

Session 2: forest ecology, forest soil/water stewardship

Session 3: forest insects/disease

Session 4: silvicultural systems, thinning, reforestation, pruning, fertility

Session 5: forest wildlife habitat, forest water quality, recreation and aesthetics, controlling access

Session 6: accomplishing forest management tasks, keeping records, forest income and property tax laws, Idaho forestry laws, financial and technical assistance

The program includes activities, presentations from several agencies' experts, discussion, videos, and other learning experiences designed to help you understand and apply basic forestry concepts.

In the process, you will be coached on how to write a plan that provides a long-term framework to help you manage your forest to meet your goals. The plan will also help you qualify for Idaho forestry property tax categories, the American Tree Farm Program, and financial assistance for forest improvements, such as tree planting, thinning, or pruning.

Credits

Teacher Credit! To help support forest science in the classroom, this program is eligible for two University of Idaho professional development credits (total cost: \$120).

Idaho Dept. of Agriculture pesticide recertification: 18 credits.

Idaho Pro-Logger Program: 18 credits.

IDAHO
MASTER
FOREST
STEWARDS

This program is also part of Idaho Master Forest Stewards certification. For more information, see: <http://www.uidaho.edu/extension/forestry/panhandle/programs/master-stewards>

Dates, Locations, Registration

The **Forestry Shortcourse** will be offered in **Post Falls** on Tuesday evenings (6:30 pm - 9:30 pm), November 2, 9, 16, 30 & Dec. 7, 14, 2021, Room 302 at University of Idaho Research Park (958 S. Lochsa Street); and again in **Sandpoint** on Wednesday mornings (9:00 am - 12:00 pm), June 15, 22, 29 & July 6, 13, 20, 2022, at the UI Sandpoint Organic Ag Center, 10881 N Boyer Rd.

COVID Protocols: Depending on COVID status and University of Idaho policy, this program may be set up for distancing and masks may be required.

A \$38 registration fee (\$120 for UI credit) includes a binder, USB drive of forest management resource materials, and refreshments. Each set of sessions can accommodate up to 25 people. Please return the registration form on the back of this flyer (to the office listed there) as soon as possible to reserve your place and help us plan. For registration questions, contact the University of Idaho Extension office in the county in which the program will be held.
