

# CHAINSAWS 101

**Friday, May 7**

**1-5 p.m. | U of I Livestock Pavilion | Moscow**

**\$10 per person**

With spring upon us, many landowners are eager to clean up their property and remove winter debris. A chainsaw can be the best tool in a landowner's toolbox when it comes to effectively and efficiently maintaining their property. However, to avoid serious injury or unnecessary strain, it is important to learn how to use a chainsaw properly and safely. Join instructors from Idaho Logging Safety and University of Idaho Extension for Chainsaws 101 to become better acquainted with using chainsaws and other forestry power tools.

Topics that will be covered:

- Basic parts and functions of chainsaws
- Basic care and maintenance
- Safety and proper use
- Other types of forestry power tools
- Hands-on opportunity to learn to use a chainsaw effectively
