Pruning to Restore White Pine

Pruning and Blister Rust

Pruning can significantly increase survival of young white pine. This program will help foresters, family forest owners, and forestry contractors evaluate: blister rust status for their white pine, whether pruning is a feasible response, and methods and tools to do the pruning.

1:30 pm

Leave for Field Trip:

- Pruned & unpruned white pine plantations & stands
- Identify blister rust cankers
- Conduct blister rust status surveys
- Pruning demonstrations
- Hands-on pruning exercises

5:00 pm

Close

Program Agenda

- 9:00 am **Introductions & Objectives:** *Chris Schnepf*, Area Extension Educator – Forestry, University of Idaho
- 9:15 am **White Pine Blister Rust Biology:** *Paul Zambino*, Forest Pathologist, USDA Forest Service

Date and Location

Pruning to Restore White Pine will be held Friday, June 21, 2019, at the Inn at Priest Lake, located at 5310 Dickensheet Road, just south of Coolin, Idaho. The session can accommodate a limited number of people, so please return the registration form on the back of this flyer as soon as possible to assure your place and help us plan. A \$20 registration fee (\$22 to register online at www.uidaho.edu/whitepine) covers handouts and refreshments. If you plan to stay at the Inn at Priest Lake call (208) 443-2447 (soon), and state you are with the “White Pine Pruning Program” to get a discounted rate.

For registration questions, contact the UI Extension Office in Bonner County (208) 263-8511. For program questions, contact *Chris Schnepf* at (208) 446-1680.
