For Office Use: Amount Paid: __________
Cash: ☐ Check ☐ (Check # __________)

In compliance with the Americans with Disabilities Act of 1990, those requesting reasonable accommodations need to contact Jim Ekins (208-292-1287) or Iris Mayes (208-883-2267) at least one week prior to this program.
Idaho landowners who have a perennial stream running through their property often want that stream to be as stable and healthy as possible, both for the health of their stream and the health of their property. This one day program will use a combination of indoor presentations and a field trip to help participants assess streams on their property and undertake management practices to improve stream health and stability.

Program Agenda

8:00 am  Check in, snacks, networking
8:30 am  Why Stream Health: Randy Brooks, University of Idaho Extension

Dates and Location

Restoring Idaho Streams will be held on Friday, August 16, 2019, beginning at the Classroom in the University of Idaho Pitkin Forest Nursery’s Reveley Building, 1025 Plant Science Road, Moscow, ID. To ensure an effective learning environment, the program is limited to 40 participants. Please return the registration form on the back of this flyer as soon as possible, to assure your place and help us plan. A $20 registration fee includes publications and refreshments.

For registration questions, contact the University of Idaho Extension Office in Latah County (208) 883-2267.
