The Energy Executive Course not only provided relevant technical content and training, but its exercises on effective leadership, change management, and collaboration made this the most valuable development opportunity I've attended. The EEC is an excellent all-around program which taught skills I call upon often to enhance my leadership and the work I perform.”

Stuart Reilly, Chief of Staff, Austin Energy

Participating Companies 2017 - 21

Alaska Electric Light and Power Co.

34 Years of Excellent Energy Education

The Premier Energy Executive Learning Experience

University of Idaho
College of Business and Economics
**Well-Integrated Hybrid Program**

The Energy Executive Course's renowned competency-based curriculum is delivered using online, virtual, and in-person formats.

**Virtual Launch**
*(April 19-20)*
- Thoughtfully planned shorter segments interspersed with lively interaction.
- Sets the stage for intersession group work and prepares participants for June in-person session.

**Online learning, self-paced, self-directed**
*(content available April 20)*
- Electric Generation, Transmission, and Distribution
- Natural Gas Production, Transmission, and Distribution
- Utility Accounting and Financial Reporting
- Regulation and Rate Making
- Financial Management

**Strategically Timed Touchpoints**
*(May 3, May 24)*
- Create channels for remote collaboration between April and June.

**IN-PERSON**

**University of Idaho Campus, Moscow, Idaho**
*(June 11-22)*
- Strategically designed to provide a full immersion in the energy industry.
- Two weeks, face-to-face with over 80 in-class faculty contact hours, industry tours, and special events.

**Capstone Session, Coeur d’Alene Resort, Coeur d’Alene, Idaho**
*(June 23)*
- Select group of C-suite panelists and key stakeholders engage participants in dynamic discussion and debate about the transformational change taking place in today’s energy industry.
