A select group of C-suite executives and industry experts engage participants in dynamic discussion and debate about the transformational change taking place in today’s energy industry. Presenters include:

- Chief Technology Officer, Energy Impact Partners
- President and Chief Executive Officer, NW Natural
- Chief Financial Officer, Sacramento Municipal Utility District
- Senior Vice President, General Counsel, and Secretary, Oncor Electric Delivery
- Vice President, Information Technology and Supply Chain and Chief Information Officer, Portland General Electric
- Global Customer Lead, EY Power and Utilities Advisory Practice
- Vice President, Human Resources, Puget Sound Energy
- Vice President and Chief Information and Security Officer, Avista Corp.
- Vice President, Regulatory Affairs, Southern Company
- Partner, Bain and Company, Inc.
- Chief of Staff and Vice President, Digital Transformation Office, New York Power Authority
- Executive Vice President and Chief Financial Officer, Hawaiian Electric Industries, Inc.
- Vice President, Energy Market Operations and Resources Planning, Austin Energy
- Vice President and Chief Financial Officer, Northwestern Energy
- Chief Information Officer, CPS Energy
- Energy and Technology Senior Executive, Google

REGISTRATION

The Summit is designed for influential leaders and executives. Energy industry leaders are invited to register online at www.uieec.org.

Details

Dates: June 21-23, 2022
Fee: Includes instruction, materials, continuing education units, meals, and special events
$2,195 before March 25
$2,295 after March 25
Location: Coeur d’Alene Resort, Coeur d’Alene, Idaho
Phone: 208.885.6265
E-mail: uieec@uidaho.edu
Website: www.uieec.org

The Summit runs concurrently with the final week of the Energy Executive Course. (The 69th annual Energy Executive Course is June 11-23, 2022, on the University of Idaho campus in Moscow, Idaho.) Moscow participants will join the Summit cohort in Coeur d’Alene for the capstone presentations on Thursday, June 23. The final banquet and dinner cruise with advisory board, faculty, and staff on beautiful Coeur d’Alene Lake will follow.

Cancellations and Substitutions

Please submit cancellations and requests for refunds via email by May 13, 2022. Refunds received by this date will be processed less a $150 administrative fee. No refunds will be made for cancellations after May 13, 2022. Substitutions will be processed for no additional fee and will be accepted until the first day of the program.

“The Summit is an excellent forum on the latest energy industry trends through an informed and knowledgeable set of speakers and a highly engaged group of attendees—very well done with great customer focus!”

Tom O’Brien, Vice President, Information and Technology Services
PJM Interconnection, LLC

“Actively participating in the Summit provides an invaluable platform for the discussion of challenges we are all facing and is an excellent opportunity to network.”

James Blanton, Director, Distribution Engineering
Oncor

Dynamic Transformation of the Energy Industry

“The Summit hit it out of the park! The topics, venue, and organization were stellar.”

Anne Jones, Vice President, Human Resources, MDU Resources

Tom O’Brien, Vice President, Information and Technology Services
PJM Interconnection, LLC
**EXECUTIVE PANELS**

**CIO Panel—Leading the Digital Transformation**
A panel of industry CIOs discuss the opportunities and challenges of the digital transformation. Topics include the search for new talent, investing in new technologies, launching new products and services, and cybersecurity.

**Data Analytics Panel—Big Data**
A panel of industry experts examine how big data is transforming the energy industry. Topics include using predictive analytics to prioritize risk, how energy companies are using big data to deliver what customers want, and machine learning.

**Operations Panel—Managing an Increasingly Complex Grid**
A panel of operations officers discuss the challenges of operating and coordinating a more complex grid with more information, distributed resources, and diverse customer expectations. Topics include managing a distribution system in transition, and balancing supply and demand by enabling more flexibility, adaptability, and responsiveness.

**CFO Panel—Managing Risk While Investing in the Future**
A panel of industry CFOs discuss the economic impact of new technologies, customer expectations, and changing business models. Topics include the impact of disruptive technologies on the planning and investment cycle, how customer expectations and changing policies are impacting investment decisions, and how rating agencies and Wall Street perceptions affect raising capital.

**Legal and Regulatory Issues Panel—The New Energy Marketplace**
A panel of industry experts explore the legal and regulatory issues facing utilities in the new marketplace. Topics include solar, electric vehicles, community energy, microgrids and storage, and home energy management.

**Strategic Human Resources Panel—Today’s and Tomorrow’s Workforce**
A panel of human resource executives examine challenges in the energy industry and the impact on the workforce. Topics include the digital workforce, culture and engagement, talent crisis, and the workforce of the future.

**Stakeholder Engagement—Working Collectively to Find Solutions**
A communications and energy industry expert discusses how effective messaging is being employed to build public and governmental support for critical initiatives. Topics include cognitive bias, understanding the language of our stakeholders, and employing effective advocacy tools and messaging to build collaboration.

**CEO Panel—Pathways to the Future**
A panel of industry CEOs explore today’s fast-paced change and discuss how they are aligning their vision with changing policy, regulation, and business models. Topics include increasing customer and employee expectations, new competitors, integrated grid, growing threats to resilience, and decarbonization.

**KEYNOTE SESSIONS**

**Shaping the Evolving Energy Landscape**
Leading expert Michael Webber explores how innovative utilities across diverse markets, regulatory environments, and geographies are collaborating to understand emerging technologies and business models to prepare for the utility of the future.

**Next Generation Technologies**
Recognized innovator, leader, and technologist Raiford Smith explores the convergence of new computational tools, automation, and strategic partnerships in the transition to a resilient, carbon-free electricity system.

**Industry and the Environment Dialogue**
Stellar instructors Ralph Cavanagh and David Devons examine a view forward, responding to comprehensive energy and climate legislation and a new regulatory model.

**PLENARY SESSIONS**

**Energy Diversity and the Evolving Consumer Ecosystem**
Leading expert Greg Guthridge examines how technology advances are powering new ways to engage consumers in the increasingly diverse energy ecosystem.

**What’s Beyond the Horizon for Utilities**
Leading expert Grant Doughan examines how utilities are investing to benefit customers and contribute to growth, including grid modernization and hardening, power-generation, fleet transitions, and new energy technologies.

---

**“I wholeheartedly recommend the Summit to any and all leaders in the electric industry!”**

Bill Pate, Director, Workforce Planning and Employee Services
Pacific Gas and Electric Company
The Summit is an executive forum designed specifically for energy leaders to provide up-to-the-minute information on critical issues shaping the future.
