

# Idaho's Changing Climate: *A Conversation*

Based on Barbara Kingsolver's '*Flight Behavior*'

Kingsolver is a biologist by training, and she has won many prizes for her fiction. Set in a small Appalachian town, *Flight Behavior* features a diverse set of characters — including scientists and environmentalists — and very different belief systems — fundamentalist Christians and atheists, among others. In her fictional world, these people find a common interest in protecting our at-risk environment. The novel has been praised for addressing climate change impartially, with a “deft and versatile empathy” that invites a wide range of readers into conversation.

**Wednesday,**

**May 15, 5:30 pm**

**At the Innovation Den,  
418 E. Lakeside, Cd'A**

You are invited to a conversation about Kingsolver's novel led by English professor Jennifer Ladino, University of Idaho, and science educator, Kayla Bordelon, Natural Resources and Society, both former National Park Service rangers. The discussion will look for common concerns in Idaho about climate change. Everyone is welcome to join the conversation — even if you haven't finished the book!

Copies of the book are available to check out at the Coeur d'Alene Public Library's Research and Information Desk, 702 E. Front Ave. Use your Cooperative Information library card. If you don't have a card, bring in a photo ID and something with your mailing address on it and we will sign you up free of charge.

confluence **LAB**

This free event is funded by an Idaho Humanities Council Opportunity Grant and is affiliated with the University of Idaho Confluence Lab, an interdisciplinary research lab addressing environmental issues in Idaho. Additional support has been provided by the Friends of the Coeur d'Alene Public Library.
