

CLASS Summer 2024 Research Grants

Call for Proposals

- Amount: Up to \$2,500 per grant
- Who can apply: CLASS tenure-track and tenured faculty who did not receive a summer grant award last year.
- Deadline: April 15, 2024 (CLASS budget review due by April 8, 2024)

The CLASS Summer Grant Program offers up to \$2,500 for travel, equipment, supplies, and undergraduate or graduate research assistance (per HR guidelines) to support the research and creative work of the CLASS faculty. The PI can also use the grant as summer salary to fund the writing of a grant that will be submitted to a federal granting agency for the 2024-2025 cycle. The grants are intended to support tenure-track and tenured faculty to do one or more of the following:

1. **Conduct** research that will further scholarship and directly lead to a publication or creative achievement; or
2. **Write** and submit a grant proposal to a federal granting agency in the 2024-25 cycle; or
3. **Establish** a collaborative research or creative project with a team of faculty that includes at least one member from another discipline that leads either to the submission of a grant proposal to a federal granting agency or will result in scholarship and directly lead to a publication or creative achievement.

To apply, write a two-page summary detailing your plan, including a brief description of the project, a timeline, and expected outcomes. Develop and include a one-page budget. Please plan to submit a draft budget to Heather Taff (heathertaff@uidaho.edu) by April 8, 2024, for review. Once finalized, submit your three pages with a current curriculum vitae (and those of the other grant partners if a collaborative project) by uploading those documents to the Qualtrics Survey below by April 15, 2024.

Contact Traci Craig, Associate Dean for Research (tcraig@uidaho.edu), with any questions or concerns.

Grants will be evaluated to award an equitable number at each professorial rank (assistant, associate, and full). The selection committee will consist of the Associate Dean for Research and Faculty Affairs and an ad hoc committee of CLASS faculty who will make funding recommendations to the dean for the final selection.
