STITCHING THE WEST BACK TOGETHER*
Conversations about working together to ensure the social, ecological, and economic health of rangelands

Join the conversation with diverse rangeland users about shared aspirations for stewardship and management.

OCTOBER 5: DINNER
5:00 to 9:00 pm

A Conversation with Nathan Sayre
Dinner and Talk at the Basque Center, 601 W. Grove St., Boise
$40 per person/$75 per couple

Talk with one another and share a meal with rangeland users and keynote speaker Nathan Sayre, from the University of California, Berkeley. Sayre is author of *The Politics of Scale: A History of Rangeland Science* (2017), and co-author of the landmark University of Chicago Press book, *Stitching the West Back Together: Conservation of Working Landscapes in the American West* (2014).* Stitching across large landscapes with diverse users *“requires the long, slow, patient process of talking to one another and searching for common ground that builds the trust necessary to collaborate across fence lines.”*

BLM Idaho State Director Tim Murphy and UI Rangeland Center Director Karen Launchbaugh will also help us talk about adaptive management of rangelands — at scales that matter.
