

## CNR Labs Facilities

CNR Main Lab is home to a collection of commonly used general Laboratory equipment available for all Lab users. The Lab has centralized benches, sinks, and storage space for glassware and chemicals. Training and assistance are provided to all users.

The following equipment have been set up and are available for you:

- Drying Ovens, muffle furnaces, and desiccators
- UV VIS Spectrophotometers
- Freezer dryers
- Biosafety cabinets and assorted incubators
- Centrifuges
- Sterilizer
- Balances including analytical balances
- Freezers
- BioTek plate washer and microplate readers
- Velmex Tree Ring Measuring System
- Ice, ultra-pure water
