### Community & Inclusivity Waypoints:

Develop community, foster diversity, and promote global citizenship skills, through our unique participatory environment and employment and leadership opportunities.

1. Strengthen relationships with campus and community partners to reduce barriers to participation.
2. Promote equity, diversity, and inclusivity through hiring, training, and retention of student and professional staff and volunteers.
3. Expand opportunities for international and intercultural learning experiences.
4. Create a member experience that meets the needs of the entire Vandal community.
5. Address social determinants of health by partnering with campus departments to address the specific Wellbeing needs of historically underserved populations.
6. Create service opportunities that benefit the greater community.
