FRESHMAN			SPRING		
FALL			SPRING		
MATH 170	Calculus I <i>C or better in MATH 143 and 144 or sufficient test scores</i>	4	MATH 175	Calculus II <i>MATH 170</i>	4
ENGL 102	College Writing and Rhetoric <i>English 101 or sufficient test scores</i>	3	ENGR 210	Engineering Statics <i>MATH 170</i>	3
CE 115 <sup>a</sup>	Introduction to Civil Engineering	1	CE 105	Engineering Drafting	3
COMM 101	Fundamentals of Oral Communication	2	GEOL 111/ 111L	Physical Geology for Science Majors with Lab	4
PHYS 211/ 211L	Engineering Physics I with Lab <b>MATH 170</b>	4			
		<b>Total Credits</b>			<b>14</b>

SOPHOMORE			SPRING		
FALL			SPRING		
MATH 275	Calculus III <i>MATH 175</i>	3	MATH 310	Ordinary Differential Equations <i>MATH 175 (MATH 275 recommended)</i>	3
ELECTIVE	Humanities/Social Science Elective	3	ENGR 335	Engineering Fluid Mechanics <i>MATH 275, ENGR 210</i>	3
ENGR 220	Engineering Dynamics <i>ENGR 210</i>	3	ENGR 350	Engineering Mechanics of Materials <i>ENGR 210, MATH 175, <b>MATH 310</b></i>	3
CE 211 <sup>a</sup>	Engineering Surveying <i>MATH 143 or 170 or 175, and ENGR 105</i>	3	CE 215 <sup>b</sup>	Civil Engineering Analysis and Design <i>CE 115, ENGR 105, and MATH 170, <b>STAT 301</b></i>	3
CHEM 111/ 111L	General Chemistry I with Lab <i>Grade C in MATH 170 or sufficient test scores</i>	4	STAT 301	Probability and Statistics <i>MATH 175</i>	3
		<b>Total Credits</b>			<b>16</b>

JUNIOR			SPRING		
FALL			SPRING		
CE 322	Hydraulics <i>CE 215, MATH 310, PHYS 211, ENGR 220 and 335</i>	4	ECON 201/ 202	Economics Course	3
CE 330 <sup>a</sup>	Fundamentals of Environmental Engineering <i>CHEM 111, CE 215 and MATH 310</i>	3	CE 325 <sup>b</sup>	Fundamentals of Hydrologic Engineering <i>MATH 310, STAT 301, and ENGR 335</i>	3
CE 342 <sup>a</sup>	Theory of Structures <i>ENGR 350, MATH 275 and 310, and PHYS 211/211L</i>	3	CE 360 <sup>b</sup>	Fundamentals of Geotechnical Engineering <i>CE 215, ENGR 335, ENGR 350, and MATH 310</i>	4
CE 357 <sup>a</sup>	Properties of Construction Materials <i>CE 215, ENGR 350, MATH 310, <b>STAT 301</b></i>	4	CE 372 <sup>b</sup>	Fundamentals of Transportation Engineering <i>STAT 301 and CE 211</i>	3
ELECTIVE	Humanities/Social Science Elective	3	ELECTIVE	Civil Engineering Elective	3
		<b>Total Credits</b>			<b>17</b>

SENIOR			SPRING		
FALL			SPRING		
PHIL 103	Introduction to Ethics	3	CE 494 <sup>b</sup>	Senior Design Project <i>Senior standing and permission</i>	3
ELECTIVE	Science/Math Elective	3	ELECTIVE	Civil Engineering Elective	3
ENGR 360 <sup>a</sup>	Engineering Economy <i>Junior standing</i>	2	ELECTIVE	Civil Engineering Elective	3
CE 491 <sup>a</sup>	CE Professional Seminar <i>Senior standing</i>	1	ELECTIVE	Civil Engineering Elective	3
ELECTIVE	Civil Engineering Elective	3			
ELECTIVE	Civil Engineering Elective	3			
		<b>Total Credits</b>			<b>15</b>

**NOTE: This plan is provided as an example only. A student's specific plan may vary and is designed in consultation with a faculty advisor.**

<sup>a</sup> Offered Fall only

<sup>b</sup> Offered Spring only

A minimum grade of "C" must be earned in all engineering, mathematics, and science courses used to satisfy the curriculum. See course catalog for all degree requirements and additional information.

A "C" or better is required in all Math, Science and Engineering courses used to fulfill degree requirements. Students majoring in civil engineering may accumulate no more than 14 credit hours of D or F in math, science or engineering courses. Included in this number are multiple repeats of a single class or single repeats of multiple classes, as well as courses transferred from other institutions. *Students who exceed 14 credits of D or F will be permanently disqualified from pursuing the B.S. degree in Civil Engineering at the University of Idaho.*

To complete the BSCE degree, all students must show proof of registering for the Fundamentals of Engineering (FE) Exam before they graduate.

University of Idaho  
College of Engineering

# CIVIL ENGINEERING

Create sustainable connections between natural and built environments and make life safer for all by improving society's infrastructure.

## ABOUT YOUR DEGREE PATH

Civil engineering majors are exposed early and often to design concepts as well as to the practical side of tackling society's infrastructure challenges.

Beginning courses include basic sciences, mathematics and engineering. Junior level courses introduce the subject matter of the civil engineering sub-disciplines, while senior-level courses add depth in elective areas. Your senior year study will conclude with a team-based senior design project sponsored by a real client.

Our graduates can be found in virtually all of the major organizations hiring civil engineers in the Pacific and Inland Northwest and in many other locations throughout the U.S. and the world. Many of these graduates are partners or officers of their organizations. They work for consulting engineering firms, state and federal agencies, and construction contractors. They design and build highways, bridges, water and wastewater conveyance systems, water and wastewater treatment plants, dams, airports, structures and foundations for buildings, and other constructed facilities. They develop plans for managing traffic, preventing landslides on mountain roadways, and managing the quantity and quality of water in streams, lakes and reservoirs.

## MATCH YOUR INTERESTS

- Safe and Sustainable Water Resources
- Environmental Engineering
- Mass Transit Systems
- Structures, Bridges and Highways
- Wastewater Treatment and Water Reuse
- Hydrology and Ecohydraulics
- Pavement and Construction Materials

## YOUR DEGREE IS ACCREDITED

*Our undergraduate Civil Engineering program is accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).*
