Provides summaries of key ITS projects and listings, charts and graphs of project progress. This page is intended to be viewable by general public.

Banner 9 Implementation Project

The purpose of the **Banner 9 Implementation Project** is to replace both *Banner 8 Admin Forms* (Administrative Banner) and VandalWeb with a modern user interface design. This effort is driven by our application vendor whose support will end over the next two years. The first step of this process is the upgrade of Administrative Banner to Banner 9 Admin Pages in October 2018. This will be followed by a series of VandalWeb upgrades throughout 2019 that will be announced on a new project timeline.

Banner 9 Admin Pages Project Timeline

Banner 9 Preview Sessions: Monday, September 17th BPC Ballroom. The morning session will stream live.

- Morning Session 9:30 - 10:30 a.m. Users can [access the live stream here](#).
- Afternoon Session 2-3:00 p.m.

During the preview sessions, users will experience a live demonstration of Banner 9 Admin Pages. In an introduction to Banner 9, users will learn about the differences and enhancements as well as the resources available to learn more before the transition finalizes on October 1, 2018.

Users can submit a question in advance to mandi@uidaho.edu (<http://mailto:mandi@uidaho.edu/>).

Productivity Impact

The impact of this upgrade on our users will be one of look-and-feel. The fundamental design remains the same while the navigation and appearance has changed somewhat.

Try It Out!

We encourage you to familiarize yourself with the new format in the months leading up to the release. This page will be updated with project status and additional information as it becomes available.
