These info bursts have been approved by both Wes and Nancy.

**Market Based Compensation Presentation – Wesley Matthews**
Human Resources Executive Director Wesley Matthews presented on the implementation of the Market Based Compensation Plan that the UI will be transitioning to. More information can be found on the Compensation Task Force Website including videos from the sessions. The link is as follows: [https://www.uidaho.edu/human-resources/employees/compensation/task-force](https://www.uidaho.edu/human-resources/employees/compensation/task-force). Questions and concerns can be directed to UI’s Human Resources team at hr@uidaho.edu and 208-885-3638 or the Compensation Task Force at comptaskforce@uidaho.edu.

**Waiver of Insurance Requirements – Nancy Spink**
How to request waiver of insurance requirements
The Idaho Industrial Commission audits every contract made by the University of Idaho. For each contract, we need to make sure we have requested a Certificate of Insurance from the independent contractors with whom we do business, and document why the university did or did not collect a Certificate of Insurance from the independent contractors. The University never “waives” insurance for an independent contractor; the University only waives the “evidence” of insurance. Each independent contractor makes their own determination about what insurance is, or is not, appropriate for their own business. University of Idaho Risk grants a waiver of the insurance requirements based on an assessment of the risk to the University of Idaho from the scope of work of the independent contractors.

**Camp Accident Insurance** – Our insurer, American Income Life, is changing procedures. Initially, UI Risk is doing most of the change “behind the scenes” but please watch for instructions as you sign up. Great news: you can enroll multiple camps (up to 10) at a time, and pay for up to 10 at a time.

**Workers Compensation** – Remember that we are a self-insured employer. A strong Workers Compensation program is a great retention program for employees. Returning employees to work in “light duty” positions, whether or not for their original departments as a temporary measure, is very important. If you know of available light duty positions, please notify Abigail Dallas or Nancy Spink.
