A Word From Our Pro

Winter League started off with a bang this year! We have 12 two-person teams courageous enough to take on the challenges laid down by our new Simulator powered by Trackman. The League spans 10 weeks, playing 10 different courses, and has 10 competitive formats. After three 9-hole rounds, Jeremy Nelson and Thad Froio are in the lead, followed by Brant Lovell and Brent Feldman. I had the pleasure of watching Brant and Brent shoot a 31 on an alternating shot format played at Pine Hurst with only 11 putts. Yes, it's true, the Golf Gods have the power to influence computer software too, as evidenced by B&B's seven 20' plus one putts. It was a computer generated putting clinic! Well done fellas.

All participants seem to really be enjoying the competition and the quality of the simulator projection. Regardless of which team wins the winter league, I know 24 players who will come out ahead, with a game intact ready to start the new season. With a little bit of luck, maybe we can get off to an early start this year, if we could only figure how to appease those Golf Gods!
