## A Word From Our Pro

Well it seems winter has arrived again. This will certainly interfere with our hopes of an early opening and turf aeration maintenance. Our goal is to get you out on the golf course as soon as weather and course conditions allow. For those of you that have got the itch, it's not too late to book some times in the simulator to get the rust off the old swing. Basic trackman numbers showing swing path, clubface, angle of attack and swing speed can all help to create an optimal smash factor for your swing. The results of improved swing mechanics will be seen in better ball flight performance including trajectory, ball speed, carry distance and direction. As Ben Hogan said, "The ultimate judge of your swing is the flight of the ball."

Doug Tyler, PGA

Director of Golf, University of Idaho Golf Course
