Faculty Senate Talking Points: March 31, 2020:

• This meeting was spent in conversations and Q&A with President Green and Provost Wiencek on a variety of issues mostly related to the budget and academic affairs. We encourage everyone to look up the meeting records for a detailed account.

• Faculty Senate Leadership would like to acknowledge the hard work, flexibility, and community spirit that everyone has demonstrated under these difficult circumstances.

• From Erin Chapman and Brian Smentkowski: “CETL and the transdisciplinary online teaching and learning support group are harvesting strategies and "what's working/what's not and what I can do" plans from all colleges to further support teaching and learning in these times....” Also, keep an eye out for upcoming 30 minute zoom sessions--these are timely, tailored, super popular and effective. The official titles/dates/times for the following are in development. Tentative workshop titles/topics include the following:
  o "I'm afraid my students will cheat!": Here's what you can do
  o "Labs, Studios, and Fieldwork: Creative solutions that work"--UI faculty from vastly different disciplines share transferable strategies
  o "How's It Going?: Faculty and student perspectives
