Introduction to Position Management

Welcome to the Position Management module of PeopleAdmin. In this module, you will have the ability to create and/or modify vacancy announcements and complete the Position Authorization Form (PAF) for faculty positions. The vacancy announcement is the base for any job and helps applicants and employees understand what they will be doing for the University of Idaho, your college/unit, and your department. Faculty position descriptions are negotiated on an annual basis and that original form must be completed upon hire. The PAF helps the University of Idaho manage our fiscal responsibilities.

During this training document, we will cover:

1. How to create a new faculty vacancy announcement and secure the proper approvals for posting the new position.

2. How to fill a vacant position using an existing vacancy announcement OR PCN and secure the proper approvals for posting the vacant position.

3. How to update an existing vacancy announcement with an incumbent seated in the position without desiring to post the position.
Login Information:

1. For employee users: Go to website address: [https://uidaho.peopleadmin.com/hr/login](https://uidaho.peopleadmin.com/hr/login) and click on the SSO Authentication link. **Note:** You may be prompted to login using multi-factor authentication at this point.

2. You will login with your current network login information.
**Home Page:**

You will receive a pop-up window to add any optional comments you wish to share.

**Note:** These notes are discoverable and will be seen by all approvers in the process. They can be found in the “History” tab of the action.

You also have the option to add this position to your watch list. This checkbox is automatically selected. If you do not wish to keep this position in your watch list, deselect the check box. Click on Submit.

Once you submit your completed vacancy announcement and PAF, a unique Action Number will be assigned to your action. This number will be found at the bottom of the Position Details page. Record this number for future use.

- **Action Canceled** – The AAC can cancel an action when it is in AAC queue.
