Campus Drive/Admin Circle & South Academic Mall Improvements

Improvements are being made to the Administration Circle portion of Campus Drive and the south reach of the Academic Mall. The project aligns with the goals and objectives of the long range campus development plan (LRCDP) regarding the stewardship, preservation and enhancement of the campus open space and residential campus environment. It seeks to improve the pedestrian character and "walkability" of campus, provide for code compliant access of fire response apparatus, while preserving and enhancing the university's built environment and Olmsted legacy. Work will begin May 18, 2020. More information may be found in the project update flier.
